VISION

A Bangladesh where poverty has been eradicated; the ruling development and governance paradigm is inclusive, people-centred, equitable and sustainable; and all citizens live healthy, appropriately educated and empowered and humanly dignified life.

MISSION

To implement policies and action programmes involving multiple dimensions of human living and human poverty; pursue a life-cycle approach to human progress, catering to the appropriate needs at all stages of life. The policy planning and action programming will centre on human beings and focus on socio-economic development and environmental protection. The support and services provided relate to education, workforce development, health and nutrition, infrastructure, inclusive and appropriate financing for planned economic activities, social issues and social capital, response to climate change impacts, gender issues, cultural dimensions, sports and social advocacy etc.
PKSF: AT A GLANCE

- 150 ENRICH UNIONS
- 4146 EDUCATION CENTRES
- 13267 SATELLITE CLINICS
- 3103 STIPEND RECIPIENTS
- 169 ENRICH CENTRES
- 600 BUSINESS CLUSTERS IDENTIFIED
- 44 VALUE CHAIN DEVELOPMENT PROGRAMME IMPLEMENTED
- 765 HEALTH CAMPS
- 95116.2 (MILLION BDT) JAGORON (RMC & UMC)
- 15187.9 (MILLION BDT) BUNIAD (UPP)
- 31044.8 (MILLION BDT) AGROSOR (ME)

- 49.6 (MILLION BDT) STIPEND PROVIDED
- 31044.8 (MILLION BDT) AGROSOR (ME)

ANNUAL REPORT 2015
In recent years, Bangladesh has claimed limelight in the global media and parleys on the review of the socio-economic development, in particular on the progress of the developing countries. In spite of some freezing wrinkles on the foreheads of some national and international skeptics or motivated people in relation to some deficiency in democratic practices, Bangladesh’s march forward relating to both economic and social sectors could never be underestimated by any one. The visuals of Bangladesh, depicting both rural and urban life, would show that the country is ready to take off on to a sustainable, accelerating progress. A recent international survey (November 2015) by the International Republic Institute shows that in the opinion of the majority of Bangladeshis, this country is moving forward along the right path. In another survey (December 2015) conducted by Gallup International, it has emerged that the people of Bangladesh are the most hopeful about their future among 68 developed and developing countries surveyed.

The country’s solid march ahead is of special significance as it is happening at a time while the persisting global economic recession has been causing severe adverse impact in many countries, both developing and developed; and, moreover, the country has at times been jolted by natural disasters and political turmoils.

Let me mention a few achievements of Bangladesh: continuous annual economic growth of well over 6% during the last 7-8 years; significant improvement in basic health care services; notable improvement in social capital; steep reduction in poverty and extreme poverty; flourishing rural economy, both agriculture and non-agriculture; achievement of MDG targets in respect of child and infant mortality rates and significant reduction in maternal mortality rate; and a great leap in girls’ education. Bangladesh is ready to embark on the tasks to realize the UN adopted sustainable development goals (SDGs) to which Bangladesh also subscribes. The Palli Karma-Sahayak Foundation (PKSF) has been playing its role in this process of national progress and in advancing people’s causes and welfare by helping create an environment for the ordinary people to improve their socio-economic conditions towards achieving human dignity. Everyone must be included as the country implements the SDGs.

This Annual Report of The PKSF is a recorded testimony to what has been achieved by the organization during 2015. This Report reflects the organization’s year-long efforts in diverse programmes to reach the people at large. It is intended, through this report, to convey the nature and impact of PKSF activities to all interested. All in PKSF are constantly, efficiently, and sincerely dedicated to playing their roles as humble partners in taking forward the national development agenda.

The PKSF is now known as an innovative pioneer of development ideas under critical conditions and an expert translator of those into action. Having come out of its focus on microfinance only, the PKSF now has created a development model worthy of replication, with contextual modifications as necessary, in different
social situations where poverty persists and needs to be battled and eradicated. The PKSF focuses on socio-cultural progress of the people along with emphasis on their economic uplift through employment generation, both self-employment and wage employment, by promoting self-employment opportunities and profitable enterprises in the rural areas of Bangladesh. People themselves are involved in the PKSF supported programmes, as partners in planning as well as implementation. In fact, the PKSF and its partner organisations (POs) work with the people, not for them. In some humble way, the PKSF has been successful in arousing confidence in the poor so that they are able to discover and sharpen their own potentials and bring those to bear on the economic and social undertakings they embark upon and take forward.

The PKSF is committed to putting people at the centre of the stage. Therefore, through its POs across the country, the PKSF sincerely, collectively andconcertedly tries to implement plans and programmes in such a manner that conducive conditions are created for people to seek out, with the help of the PKSF and its POs, their best opportunities and the types and levels of support they need to move forward in both economic and social terms. For example, the PKSF's thoughtful and well-structured interventions in the north-west of the country has tangibly contributed to the significant uplift of the people there, who had been passing through nightmarish hardships arising from the collapse of employment in agricultural off-seasons. This condition was known as monga. Monga is now a thing of the past. This programme, titled Programmed Initiative for Monga Eradication (PRIME) is now also being implemented to fight the sufferings, caused by salinity ingress and cyclones, of the coastal people in southern Bangladesh. The larger goal the PKSF espouses is to enable the poor to move out of poverty, strengthen their ability to improve their living conditions and social status sustainably, earn a sense of dignity, and, when needed, become eloquent both through choric and individual voice.

The PKSF’s flagship programme ENRICH has initiated a silent yet visible revolution in terms of the poor people served in finding their feet and move forward enthusiastically and steadily in the areas of the country where the programme is being implemented. The popular acceptance of ENRICH is a continuous inspiration for us. Indeed, the programme efficiently combines individual, community, the PKSF, the PO and local government efforts to address poverty and promote development through effective mobilization and best utilization of resources, skill development and proper deployment of the skilled people, and steadily strengthening social capital.

The PKSF recognizes the vulnerability of the people, particularly the poor, as a consequence of the menacing threat of global climate change. In fact, sustainability of poverty reduction and development occur when economic progress of the poor is both socially agreeable and environmentally sustainable. Apart from economic and social action programmes, the PKSF is at present, further implementing community/household focused small environmental projects, mostly for adaptation but also for mitigation under its Community Climate Change Project (CCCP). The PKSF is also implementing climate change related awareness raising activities.

The right pathway for sustainable poverty reduction/eradication and beyond poverty development is not going to be smooth and without adversities. It is, therefore, essential to watch out for any problems and difficulties that may be faced at one time or another and take appropriate preventive or corrective actions, as appropriate, to overcome them. The PKSF and its POs are watchful in this regard, and should be more so in future.

I take this opportunity to sincerely express my gratitude to the Government of the People’s Republic of Bangladesh for its continuous support and cooperation. In particular, deep gratitude is due to Hon’ble Prime Minister Sheikh Hasina and Hon’ble Finance Minister Mr A M A Muhith. My thanks are due to all members of the Governing and General Bodies for their active support and cooperation.

I acknowledge with thanks the support of the Development Partners to PKSF. I appreciate the purposeful committed work of all PKSF personnel. The POs deserve thanks for their hard work and meaningful contributions.

Qazi Kholiuzzaman Ahmad
Chairman
Dhaka, January 29, 2016
Over the past 25 years, Palli Karma-Sahayak Foundation (PKSF) has become a leading actor in Bangladesh’s fight to eradicate poverty. This past year was pivotal in our tireless journey towards alleviating the conditions for the poor people of our country. In celebrating our Silver Jubilee, we have redefined our core value as instituting “human dignity” of the poor, rather than simply supporting their economic activities. The overall improvement of a person’s standard of living, constituting both economic and social development, is the main thrust of PKSF’s programming efforts now, in line with achieving the Sustainable Development Goals (SDGs). Our Silver Jubilee celebration was a rejuvenation and reaffirmation of our goal to improve the lives of the millions of poor living under dire stress. The grand gala festivity of the Silver Jubilee celebrations, consisting of stall displays of our partners and service recipients, performances from far corners of the country and a retrospective of what we have achieved over the past 25 years, left an indelible mark on the large number of visitors and well-wishers. The celebrations further reinforced the unfailing sense of optimism in our country’s ceaseless fight towards improving the lives of its poor.

We are proud to have built a set of firm institutional values, upon which we have expanded a network of some 200 institutions spread over 7,000 branches throughout the country, serving 11 million households. In our goal to instill human dignity at all strata of society, PKSF has worked consistently in the formation and growth of social and human capital of the households participating in our programmes. PKSF has successfully transformed itself from a financing organization to an apex development organization. Realizing that condition-bound financial assistance is not the sole answer to poverty reduction, PKSF has put increased emphasis on building capacity of the poor with no or very little resources. Through experience, PKSF has moved forward to a concept and realization of comprehensive development, which requires greater and diversified interventions beyond micro-financing. This means organizing its programmatic interventions on a life-cycle development approach. One such a path-breaking project of PKSF is Programmed Initiatives for Monga Eradication (PRIME), which has simply eradicated the concept of monga (seasonal famine) from our vernacular. PKSF’s success here speaks loudly of its commitment and quality of performance to alleviate poverty.

However, success has not made us complacent in our task to help the poor; rather, PKSF seeks continually to reach those hitherto untouched by any form of interventions. To live with human dignity, we are not happy just to see the provision of only two square meals a day; rather, the down-trodden need minimum access to basic education, primary health care, cultural

In our goal to instill human dignity at all strata of society, PKSF has worked consistently in the formation and growth of social and human capital of the households participating in our programmes. PKSF has successfully transformed itself from a financing organization to an apex development organization. Realizing that condition-bound financial assistance is not the sole answer to poverty reduction, PKSF has put increased emphasis on building capacity of the poor with no or very little resources. Through experience, PKSF has moved forward to a concept and realization of comprehensive development, which requires greater and diversified interventions beyond micro-financing. This means organizing its programmatic interventions on a life-cycle development approach. One such a path-breaking project of PKSF is Programmed Initiatives for Monga Eradication (PRIME), which has simply eradicated the concept of monga (seasonal famine) from our vernacular. PKSF’s success here speaks loudly of its commitment and quality of performance to alleviate poverty.

However, success has not made us complacent in our task to help the poor; rather, PKSF seeks continually to reach those hitherto untouched by any form of interventions. To live with human dignity, we are not happy just to see the provision of only two square meals a day; rather, the down-trodden need minimum access to basic education, primary health care, cultural
entertainment, skill development and social recognition to better fulfill their quest to human dignity. In this regard, PKSF initiated a new programme in 2010 called Enhancing Resources and Increasing Capacities of Poor Households (ENRICH), with an out-of-the-box approach towards poverty eradication. The programme, conceived and designed by PKSF Chairman Dr. Q. K. Ahmad, takes into account every single available resource of the poor to ensure its optimum use, so that a person can discover her/his true inner potential given the little resources that s/he possesses. This new idea is being realized within the limits of a specific Union, the smallest grass root level unit in our administrative structure, with the involvement of the respective local government organizations, PKSF and its programme participants. This joint effort has gained momentum and yielded benefits for the participating households. ENRICH households have become examples of a new development model, and ENRICH centres have become a hub of community activities.

Global climate change has critically exposed Bangladesh to an extremely vulnerable state. PKSF has put intensive efforts to contribute towards mitigation and adaptation to the impact of climate change. It is engaged in multi-dimensional activities through its Community Climate Change Project (CCCP). Other projects include ADB’s Skill for Employment Investment Project (SEIP) and IFAD’s Promoting Agriculture Commercialisation and Enterprises (PACE) project, which have gained momentum over the recent years. In order to enable behavioural change and improve nutritional status of the poor, PKSF has implemented UPP-Ujjibito. All the mainstream and special programmes, projects and capacity building initiatives of PKSF are being operated with commendable efficiency. This Annual Report briefly reflects on the major aspects of all such interventions of PKSF.

PKSF maintains a high level of accountability, transparency and integrity. It has put into practice the National Integrity Strategy (NIS) as adopted by the Government. PKSF has prepared its integrity action plan, which includes grievance redress system, submission of income tax returns and asset statement by the employees etc. which will ensure the maintenance of the code of ethics at individual, professional and organizational levels.

Over the years, PKSF has earned coveted accolades from various persons and organizations. The US Department of Treasury, International Fund for Agricultural Development (IFAD) and other organisations have expressed appreciation for PKSF’s performance. The number of overseas visitors to PKSF and its field activities is on the rise. We have been honored to welcome Her Majesty Queen Máxima of the Netherlands at our Head Office in November, 2015 and share with her the achievements and future strategies of PKSF vis-à-vis the microfinance institutions of the country.

The key patron of PKSF is the Government of Bangladesh. We have also received support from various multilateral and bilateral development partners with the assistance of the Government. However, the true heroes of our success are our Partner Organizations and participating members spread across the country. Our Chairman, the eminent economist and development philosopher Dr. Qazi Kholiquzzaman Ahmad’s strategic direction has been crucial in steering PKSF to its present stage of success. The Chairman and the Members of the General and Governing Body have been active in providing policy directions and translating our vision into reality. We are also proud of our highly efficient and committed professional staff. The PKSF family shares a rare bond in the mission to contribute to building a poverty-free and happy Bangladesh. With the firm belief of having the continuous support from all stakeholders of PKSF in future, I take this opportunity to extend my sincere gratitude to all of them.

Md. Abdul Karim
Managing Director
Dhaka, January 29, 2016
The General Body provides overall policy directives to the management of PKSF in order to undertake meaningful activities by the organisation to fulfill the objective of alleviating poverty of the under-privileged people through employment generation. It oversees and advises on measures and initiatives that seek to establish and ensure the human dignity of the poor people. Among other functions, the General Body approves the annual budget and the audited accounts of the organisation. It also reviews the annual report presented by the Governing Body of the organisation.

The meeting of the General Body is required to be held at least once every year. However, since 2012, the General Body has decided to meet twice a year: the Annual General Meeting (AGM) would preferably be held during the months of December and June. The General Body may consist of a maximum of 25 members. Out of them, the Government of Bangladesh (GoB) nominates a maximum of 15 members, including the Chairman, from amongst persons associated with the government agencies, voluntary organisations or private individuals having a successful record of service in poverty alleviation and/or interest in such activities. The Chairman must not be in the service of the Republic. The General Body, in the AGM, nominates the remaining 10 members from the Partner Organisations (POs) and/or private individuals. As of 31 December 2015, there were 22 members in the General Body.
THE MEMBERS OF THE GENERAL BODY
(AS ON DECEMBER 31 2015)

Dr. Qazi Kholiquzzaman Ahmad
Chairman, PKSF
Member of the Intergovernmental Panel on Climate Change (IPCC), which won the Nobel Peace Prize in 2007

Mr. Md. Abdul Karim
Managing Director, PKSF
(Former Principal Secretary to the Government of Bangladesh)

Dr. Pratima Paul-Majumder
Former Senior Research Fellow
Bangladesh Institute of Development Studies (BIDS)

Professor Dr. A.K.M. Nurun Nabi
Vice-Chancellor, Begum Rokeya University, Rangpur

Mr. Khondkar Ibrahim Khaled
Former Deputy Governor, Bangladesh Bank and
Former Chairman, Bangladesh Krishi Bank (BKB)

Dr. M. A. Quassem
Chairman, National Disaster Management Advisory Committee

Ms. Nihad Kabir
Senior Partner
Syed Ishtiaq Ahmed & Associates (SIA&A)

Mr. Md. Fazlul Haque
Additional Secretary
Bank and Financial Institutions Division
Ministry of Finance, Government of Bangladesh

Professor M. A. Baqui Khalily
Executive Director
Institute of Micro-finance (InM)

Mr. C. M. Shafi Sami
Former Adviser to the Caretaker Government of Bangladesh and
Former Foreign Secretary

Dr. Bondana Saha
Supernumerary Professor and
Former Director General
Bangladesh Institute of Bank Management (BiBM)
Ms. Bulbul Mohalanabish  
Professor  
Southeast University, Dhaka

Mr. Md. Emranul Haque Chowdhury  
Executive Director  
UDDIPAN (a Partner Organisation of PKSF)

Begum Razia Hossain  
Executive Director  
Mohila Bohumukhi Shikkha Kendra (a Partner Organisation of PKSF)

Mr. Ishtiaq Uddin Ahmad  
Country Representative for IUCN  
(International Union for Conservation of Nature) and  
Former Chief Conservator of Forests, Bangladesh

Mr. Nazir Ahmed Khan  
Former Chief Executive  
Bangladesh Bank Training Academy

Dr. Nazneen Ahmed  
Senior Research Fellow  
Bangladesh Institute of Development Studies (BIDS)

Professor Shafi Ahmed  
Former Professor, Department of English  
Jahangirnagar University

Ambassador Munshi Faiz Ahmad  
Chairman  
Bangladesh Institute of International and Strategic Studies (BIISS)

Mrs. Monowara Hakim Ali  
Former First Vice President  
Federation of Bangladesh Chambers of Commerce and Industries (FBCCI)

Mr. S.M. Wahiduzzaman Babur  
Head of Finance, Admin, HR and IT  
Practical Action Bangladesh

Dr. Mujib Uddin Ahmad  
Professor and Chairperson  
Department of Tourism and Hospitality Management  
University of Dhaka
The Governing Body, subject to the general control and supervision of the General Body, holds the responsibility to pursue and carry out the goals of the organisation. It determines the direction and scope of the activities of the organisation in order to attain its intended goals. The Governing Body holds the financial control of the organisation, including approval of projects and making grants, donations, loans or other financial assistance to the Partner Organisations (POs). The Governing Body consists of 7 members. The Government of Bangladesh (GoB) nominates the Chairman and two other members from amongst individuals having a record of service in activities of poverty alleviation and income generation and/or interests in such activities. The General Body, in its AGM, elects three other members representing Partner Organisations and/or individuals having demonstrated contribution in the development sector. The Governing Body, in consultation with the Government, appoints the Managing Director who is the Chief Executive Officer of the organisation and an ex-officio member of the Governing Body and the General Body of PKSF. As on 31 December 2015, there were 7 members in the Governing Body.
Dr. Qazi Kholiquzzaman Ahmad

a renowned economist and development thinker and a reputed specialist on Climate Change, is the chairman of PKSF. He is also currently the chairman of the governing council of Dhaka School of Economics (DScE).

He is a former president of Bangladesh Economic Association (BEA), the founder Chairman of Bangladesh Unnayan Parishad (BUP), and a former Research Director at Bangladesh Institute of Development Studies (BIDS). He was the President of Kuala Lampur-based Association of Development Research and Training Institutes of Asia and the Pacific (ADIPA) during 1979-83 and the Vice-President of Rome-based Society for International Development (SID) during 1988-91. He was also a member of Clean Development Mechanism (CDM) Executive Board under Kyoto Protocol of UNFCCC (2009-2014). He was a member of the Intergovernmental Panel on Climate Change (IPCC) that won the Nobel Peace Prize in 2007, having been Coordinating Lead/Lead Author for the 3rd and 4th Assessments, published respectively in 2001 and 2007. He received the Ekushey Padak 2009, one of the highest Bangladesh National Civilian Awards, presented by the Government of Bangladesh.

Dr. Ahmad’s vision of development centres around the establishment of human rights and human dignity for all, and the starting point for moving towards that goal is to focus on ensuring basic education, skill training and healthcare for all without exception. He was the co-chair of the committee that formulated Bangladesh National Education Policy 2010, which focuses, among many other aspects, on inclusiveness and quality of education. Dr. Ahmad is a well known expert on climate change, and is an advocate on the concerns about its adverse impacts on both natural and human systems and how to address them.

He has been keenly promoting sustainable development in all its aspects. He has played a lead role at the national level, in the case of both the government initiatives and civil society efforts, in the formulation of proposals and recommendations relating to the Post-2015 Development Agenda from Bangladesh perspective. UN General Assembly (UNGA) adopted a global Post-2015 Sustainable Development Agenda in September 2015.

Regional cooperation for mutual benefit has been another major focus of his research, dialogues, and advocacy activities since the late 1980s. On the management of water resources in particular, he has, in cooperation with other experts in the field from Bangladesh and other South Asian regional countries, produced several pioneering research works on South Asia regional water issues, with particular reference to Ganges-Brahmaputra-Meghna region. He has to his credit several other publications on water issues.

Dr. Ahmad has conducted a wide range of research works on policy planning, food and agriculture, environment and climate change, water resources, rural development and employment generation, poverty alleviation, human development, women in development and gender issues etc. He has written (alone or jointly with others) 35 books and over 250 learned articles, published at home and abroad.
Mr. Md. Abdul Karim

a former Principal Secretary to the Government of Bangladesh, is the Managing Director of PKSF. He is the Chief Executive Officer of the organisation and also an ex-officio member of both General Body and Governing Body of PKSF. Earlier, he worked as Secretary to the Government in the Ministries of Commerce, Fisheries and Livestock, Home Affairs, Communications (Bridge Division) and Finance (Internal Resource Division). He was Chairman of the National Board of Revenue (NBR). He also served as the Economic and Commercial Minister/Counsellor of Bangladesh Embassy in Belgium. Mr. Karim was Chairman/Director of a number of state-owned companies including Padma Oil Company Limited, Eastern Refinery Limited etc. He was the ex-officio Chairperson of a number of national level committees of various Ministries while serving as Principal Secretary.

Mr. Karim obtained Master of Social Science degree in Development Administration from the University of Birmingham, UK and M.Sc. in Chemistry from the University of Chittagong. He participated in many professional training programmes at home and abroad and attended many international conferences, meetings and seminars.

Mr. Karim is the Secretary General of the South East Asian Cooperation (SEACO) Foundation, Bangladesh and he is working at the civil society level for trade and investment promotion among five countries of the South and South East Asian region. Mr. Karim is a Board Member of the Institute for Inclusive Finance and Development, Microcredit Regulatory Authority (MRA), Social Development Foundation (SDF), Small Farmers Development Foundation (SFDF) etc. He is a Paul Harris Fellow (PHF) Rotarian and contributes towards the improvement of the socio-economic conditions of the disadvantaged people of the society. Mr. Karim is the President of Bangladesh Table Tennis Federation and immediate past President of Bangladesh Scouts (Boy Scouts and Girl Guides). He has received the highest Scout Award of the country. He is now the Advisor of Bangladesh Scouts and President of Bangladesh Scouts Foundation. Besides, he is involved with many other socio-economic organisations.

Mr. Karim is a member of the Honorary Advisory Board for developing Country Programme Document (CPD) of UNDP Bangladesh for the 2017-2021 cycle. He is the Advisor Board Member of the Center for Education and Community Development (CECD) under Vietnam Association for Education Psychology Science. He is also the Strategic Advisor to Shanghai Changing Oriental Hongqiao Microloan Company of China.

Mr. Karim has lectured as a guest speaker at various Universities and training institutions including North South University, Public Administration Training Center, National Defence College of Bangladesh, Bangladesh Military Academy, Bangladesh Civil Service Administration Academy etc. He has authored books and articles on local government and other subjects. He has travelled to 45 countries of the world. He is married and has three children.

Mr. Karim is leading PKSF toward implementation of holistic, people-centered integrated poverty alleviation activities as well as inclusive financing programmes for sustainable development of Bangladesh.
DR. PRATIMA PAUL-MAJUMDER

is one of the former Senior Research Fellows of Bangladesh Institute of Development Studies (BIDS). She conducted an intensive research on ‘Cooperative Way of Agricultural Development in Bangladesh’ for which she was awarded PhD degree from the University of Warsaw, Poland. Dr. Paul-Majumder is the pioneer researcher who undertook studies on the prevailing working conditions in the garment sector since 1990. She is seriously and continuously engaged with the issue of gender budgeting for over a decade. She has very commendable action research on the state of women of the religious minority communities. She has a long and excellent research career. She served as a consultant to numerous research projects conducted by various national and international organisations. She is a member of the Governing and General Bodies of InM.

MEMBER

PROFESSOR DR. A.K.M NURUN NABI

a Canadian Commonwealth Scholar and a former Professor in the departments of Sociology and Population Sciences, University of Dhaka, is currently the Vice-Chancellor of Begum Rokeya University, Rangpur. He obtained his PhD degree in Demography from the University of Alberta, Canada in 1991. He is the Founder Chairman of the Department of Population Sciences, University of Dhaka. Prof. Nabi has published and co-authored books with national and international scholars and authored a large number of research articles in reputed national and international journals and books. Apart from being the member of Bangladesh National Population Council, a member of the Governing and General Bodies of PKSF and InM, he also holds important positions in many professional bodies.

MEMBER

MR. KHONDKAR IBRAHIM KHALED

has a reputation of possessing a very admirable career in both commercial and central banking sectors. He was the former Deputy Governor of Bangladesh Bank. He was also the former Chairman of Bangladesh Krishi Bank (BKB). During his long banking career, he served as the Managing Director of BKB, Agrani Bank, Sonali Bank and Pubali Bank Limited. He also served as a General Manager of PKSF. He secured his M.BA degree from the Institute of Business Administration (IBA), University of Dhaka. Mr. Khaled has been associated with various professional and social organisations for a long time.

MEMBER
**DR. M.A. QUASSEM**

was the former Director General of Water Resources Planning Organisation. He has also served in many top-level positions related to water management in Bangladesh. Currently, he is the Chairman of National Disaster Management Advisory Committee of the Government of the People’s Republic of Bangladesh. He is also the member of the National Water Resources Council and Governing Council of Bangladesh Water Development Board. Mr. Quassem obtained his PhD on Participatory Water Management from the University of Barrington, USA in 2000. He completed his Post-Graduation in Hydraulic Engineering from UNESCO-IHE and Rural Policy & Planning from ISS, the Netherlands.

**NIHAD KABIR**

is an advocate of the Supreme Court of Bangladesh. She is the Senior Partner of Syed Ishtiaq Ahmad and Associates, a leading law firm of the country. She was the Vice-President of the Metropolitan Chamber of Commerce and Industry, and currently is a Committee Member. She is a member of the Company Law Reforms Committee; and was a member of the National Education Policy Committee of Bangladesh, as well as the National Pay and Services Commission. Nihad is a Director on the Board of BRAC Bank Limited, Independent Director of Apex Footwear Limited and Square Pharmaceuticals Limited. She is on the Board of, among others, Infrastructure Development Company Limited (IDCOL), Palli Karma-Sahayak Foundation (PKSF) and BKash. She is chairman of the Board of Directors of Brac EPL Investments Limited and Brac EPL Stock Brokerage Limited. Nihad was called to the Bar from Grays Inn in England. She has a BA (Hons) degree in law, an LLM and an MA degree, all from the University of Cambridge, England.
PKSF management is essentially responsible to look after the functions of the organisation as per the projected activities of its five divisions. It looks after the regular day-to-day-routine work and also takes care so that every move is in place to realize the vision and carry the mission of the Foundation.

At present, PKSF’s organisational structure is constituted of five divisions and one unit. These are: (1) Credit Operations and Programme Development Division (2) Administration, Finance and Integrated Development Division (3) Credit Operations and Capacity Development Division (4) Audit Division (5) Research Division and the Environment Unit.

**Credit Operations and Programme Development**

This division is responsible to implement the core appropriate finance programmes of PKSF such as **Buniad**, **Jagoron**, **Agrosor** and **Sufolon**. This division also manages the activities led and managed by enterprise development unit, insurance unit, MIS unit. It also looks after four different projects namely Community Climate Change Project (CCCP), Promoting Agricultural Commercialisation and Enterprises (PACE), Skills for Employment Investment Programme (SEIP) and Bangladesh Climate Change Trust Fund (BCCTF). This division is headed by the Deputy Managing Director (Operations-1). Total Number of officers employed in this division is 59.

Administration, Finance & Integrated Development
This division comprises of three sub divisions namely 1) Human Resources & Administration. 2) Finance & Accounts and 3) Integrated Development. HR & Administration is responsible to provide administrative and human resource related support to PKSF’s 323 staff engaged in different divisions and projects through its different units which are: Human Resources, General Administration, Publications and Communications, Library, Information Technology, Training, Construction and Maintenance and Legal Affairs.

The Finance and Accounts Department of PKSF is a separate department under this Division. This Division also looks after ENRICH programme, Special Fund, Programmes Support Fund (PSF). Deputy Managing Director (Administration and Finance) is head of this division.

Credit Operations & Capacity Development
This division comprises of two sub-divisions 1) Credit operations and 2) Capacity development. Credit Operations deals with the core microfinance programmes of PKSF: Jagoron, Agrosor, Buniad and Sufolon. Capacity Development deals with Disaster Management Programme, Kuwait Goodwill Fund (KGF), Livestock Unit, Agriculture Unit, Social Advocacy and Knowledge Dissemination Unit. Besides, this division also manages two different projects namely PROSPER and UPP-Ujjibito. This division is headed by one Deputy Managing Director (Operations-2). A total of 60 officers are now working in this division.

Audit Division
Audit division provides some critical services to PKSF management to ensure accountability and transparency of the organisation. These include detecting and preventing fraud, testing internal control, monitoring compliance of PKSF’s policy and government regulation. This division is headed by a General Manager who exclusively reports to the Managing Director. This division is operated through two wings: Internal Audit and External Audit. Internal audit deals with the audit related affairs of both PKSF and POs. External Audit wing coordinates the tasks of external audit of both PKSF and POs through enlisted audit firms. A total of 18 officers are now working under this division.

Research Division
The main areas of PKSF Research division include assessment of the core programmes/interventions of PKSF, their impact, appraisal of a certain aspects of the problem, action research and policy related issues. The Research division conducts its research activities in three ways: by its own staff; jointly with research and academic institutions at home and abroad and through outsourcing. Led by a Director, the division has 4 staff.

Environment Unit
Recently, PKSF has established an Environment Unit which will deal with the climate change related issues in Bangladesh. This unit will take practical actions to increase the resilience of the community who are prone to the adverse impacts of climate change. This unit will be led by one Director.

Staff
As of 30 June 2015, PKSF management team is comprised of 323 talented and committed staff, which includes 177 regular officers, 100 staff, 37 project and 10 contractual personnel. Individuals with excellent academic background and work experience are recruited as staff. PKSF endeavours to enhance skills and capacity of its staff through necessary training at home and abroad.
Yousuf bears a face that has probably lost the strength to put up the essential beauty of a smile. When I asked for a cup of tea at the humble eatery that he runs, he certainly felt elated within. However, the expression lacked the usual sweetness. Yousuf is an inhabitant of Bishnupur, a distant village of Joipurhat district. Only the other day, he was a pauper earnestly begging kindness and alms from the walkers on the street. He is now an owner of this country restaurant under the beggar rehabilitation intervention of Palli Karma-Sahayak Foundation (PKSF). This is an exciting scene, almost unbelievable. Who would have thought that some such happy days have been waiting for Yousuf and many more in the country?
This one story would verify the tireless journey that PKSF has embarked upon. This also strongly speaks of diversifying its interventions to alleviate poverty with the involvement of the very people who had been suffering from it through generations. This is not just one example. All PKSF initiatives are strategically designed to work just not for the people but with the people. We have thoughtfully departed from the ‘classical’ concept of development prescribed by our overseas donors. Our vision is fundamentally rooted in the cultivation of the potentials of the countrymen to create for themselves a meaningful (please read as sustainable) social environment where enhancement of the living standard is not limited to breaking the shackles of the poverty net in its simple economic terms, but it would also pave the way for them to breathe in a space where ‘spiritual’ contentment also exists.

This truly pro-people approach to development has earned a distinction for this organisation, which others cannot claim. PKSF has ‘humanistically’ transformed the conventional jargon of ‘community participation’ in the practical sense of the term. Translation of this spirit into reality is not an easy job, but the remarkable fact is that all in PKSF, right from the staff at Dhaka to the far corners of the country have undergone a ‘spiritual’ orientation to understand the ‘human’ paradigm of development. Through the ENRICH programme, we dare to involve the representatives of local government in the development process. Our synergy is further strengthened with the participation of all stakeholders in the Union, the lowest unit in our administrative ladder. PKSF has started establishing ENRICH centres, which have become community hubs where people get together in the afternoons or evenings and talk about community welfare. These have also become centres for socialisation, learning and entertainment. The ENRICHed homes are the visible and concrete examples of how PKSF plans to empower people with their own capabilities. That’s how and where PKSF stands apart from other development actors.

PKSF was established by the Government of Bangladesh in 1990 and registered under the Companies Act 1913/1994 as a non-profit organisation. In the initial years, PKSF followed the conventional or existing course of distributing some humble amount of money with some conditions already in practice within the country. But at present, PKSF is known throughout the country and beyond for the departure noted above. We have included the revised Vision and Mission of the organisation which is set at the very beginning of this year’s Annual Report. We beg the attention of all to understand the new, human-centred and truly holistic view of development that combines the poor people’s mite with the infused energies that PKSF offers.

We earnestly try to use the indigenous knowledge and resources in all our interventions. This we have learnt from the people with whom we work. The challenges to eradicate monga through the PRIME programme in the northern part of Bangladesh taught us how to create income generating activities within the geographical contexts the poor people live in and the constraints of their resources. Our success prompted us to initiate similar interventions in southern Bangladesh where the destiny of the coastal people is perpetually under the mercy of nature. Within a short span of time, these people were left destitute as consecutive cyclones left their life in sheer disarray. PKSF further brings to them the knowledge and practices about the mitigation and adaptation measures to fight such threats.

Different contexts demand different treatment of interventions. But what PKSF persistently insists is the involvement of the people themselves as the actors for positive social change which would be invariably characterised by children’s education, primary health care with emphasis on pure drinking water and sanitation, awareness about social evils like child marriage, dowry, eve-teasing etc. PKSF has made it mandatory for all its Partner Organisations to spend at least 10% of their net income into such social welfare interventions. All this truly offers to PKSF activities an outstanding quality in performance. The contents that are presented in the pages of this Annual Report will verify what we profess.
Facing page surely offers the readers a view that is simply grand and elegant. The building in the middle is the architectural model of the new site of Palli Karma-Sahayak Foundation (PKSF) coming up in the business district at Shyamoli, Dhaka. The preparatory activities have taken off. The construction will begin as some of the formal hurdles for building a tall structure in Dhaka are completed. Earnest efforts are in place. The floor space of this sky-scraper will be used to meet multi-purpose ends. However, we have a primary agenda. And that will herald a new beginning in the working relationship of PKSF and the people.

Our experiences of working with the rural micro-entrepreneurs for more than twenty-five years have taught us that the state of their economic misery has some critical connection with the limitations of finding some profitable and adequate market linkage. The pressure of teething poverty and non-availability of a market where the primary producers can sell their products at a reasonably fair price compel them to trade with some local dealers and sell things at a nominal price. These are sold in Dhaka at a much higher price. This is a cruel reality and very powerful weapon of exploitation on the poor.

PKSF has decided to strongly react to this pitiful reality. This upcoming new tall PKSF building will be a house for the primary producers who are members and participants of various PKSF programmes and projects, to display and sell their products at the city market at a retail price that the citizens usually pay. The variety of such items attracted patronising attention of the city-dwellers during the Development Fairs organised by the Foundation at different intervals. These products include lovely floor carpets, eye-catching bed materials, bags for fashion and formal use, sundry items for interior design that inhale a sense of tradition and aesthetics, saris of countless design and various materials, household goods, things of use for every age and class of people, food items which bring saliva for all and more importantly these are all health-friendly and further arouse the love for the very 'indigenous' we are proud of.

The primary producers coming from different parts across the country will bring their produces for sale. The space will be provided free to them for display and trading. They will have to pay only some money for the cost of electricity and maintenance. We are thinking of a popular and catchy branding so that such products can claim some definitive distinction in the market. We are sure that this metropolitan business address of the rural primary producers, this symbolic Development Tower will bring in a positive change in their lot. And this will bridge the country with the capital in a very meaningful way. Let's all look forward to see a new bondage of PKSF and the people we work with, far from the madding crowd.

A casual footnote. The PKSF office at Agargaon, Dhaka is now undergoing some sky-loving metamorphosis. It's going higher. The new floors will be put to use within 2016.
OVERALL PERFORMANCE OF PKSF

The genesis of Palli Karma-Sahayak Foundation (PKSF) goes back to 1990. Established just in the starting year of the last decade of the last century, it was registered under the Companies Act 1913/1994 by the Government of Bangladesh as a ‘not-for-profit’ company.

The primary objectives of PKSF relate to employment generation for the rural poor having little or no land or asset, alleviation of their poverty and improvement of the quality of life. Since its inception, PKSF has been relentlessly putting efforts to make a significant contribution to create a favourable environment for enterprise development, capacity enhancement and social protection through efficient implementation of various programmes and projects. PKSF works through some local actors across the country which it calls Partner Organisations (POs). These POs are registered as NGOs and CBOs (Community Based Organizations). The organised members and borrowers of the Partner Organisations of PKSF are thoughtfully guided and advised so that they can make the best use of the opportunities made available by PKSF to enhance their resources, build up their capacity to protect the
members from sudden economic shocks and to generate their self prospective employment.

PKSF started various programmes and projects with its POs with the aim to institutionalize these organisations and to strengthen their capacity as the efficient actors in development activities at the primary level. Mobilization of poor people and provision of necessary training with appropriate financial support have been the initial and continuous interventions. PKSF has a significant pro-poor strategy that looks at poverty alleviation from a holistic way. PKSF constantly redefines and redesigns its interventions, taking into account the concerns and needs of the poor with the changes of times. PKSF believes that appropriate financial support is not the only answer to alleviate poverty and it cannot be achieved with one component only. This requires addressing the needs of education, training, healthcare, access to resources and equal opportunities for all. It is an integrated development process that involves multiple socio-economic components to ultimately ensure the human dignity of people.

Learning from the ground realities, PKSF introduced a unique livelihood project titled ‘Programmed Initiatives for Monga Eradication (PRIME)’ in 2006 to fight against the extreme consequences of monga (a state of semi-stagnation and alarming loss of entitlement) and monga-like situations. This project has been implemented successfully in northern Bangladesh. PRIME has gradually expanded its activities in the south-western and north-eastern regions of Bangladesh to promote sustainable livelihoods of the vulnerable poor.

PKSF is implementing the EU-funded ‘Food Security 2012 Bangladesh-Ujjibito’ project that comprises two components. The first component supports LGED’s Rural Employment and Road Maintenance Programme Phase-2 (RERMP-2). The second component supports PKSF’s Ultra Poor Programme (UPP)-Ujjibito covering 1,724 unions in Barisal, Khulna, Rajshahi and Chittagong Divisions. This component focuses on developing capacity of the targeted beneficiaries to create income generation activities and to ensure household food security.

‘Finance for Enterprise Development and Employment Creation (FEDEC)’ project was implemented throughout the country. Apart from providing financial services for enterprise development, 44 sub-sector based Value Chain Development sub-projects were implemented in 15 districts of the country under the FEDEC project to help increase the productivity and income of the entrepreneurs as well as employment generation. PKSF provided various technological and technical support to the entrepreneurs engaged in respective sub-sectors. PKSF has launched an IFAD funded project titled ‘Promoting Agricultural Commercialisation and Enterprises (PACE)’ in January 2015 to expand PKSF’s enterprise development programme.

PKSF has successfully implemented a micro-insurance pilot project titled ‘Developing Inclusive Insurance Sector Project (DIISP)’ from January 2010 to December 2014. In view of the necessity and importance of the project, the participating Partner Organisations under the project have been continuing the pilot-testing of micro-insurance services with their own capacity.

Realizing the nature and magnitude of the adverse impacts of climate change and the efforts required to enhance resilience, the Government of Bangladesh (GoB) adopted ‘Bangladesh Climate Change Strategy and Action Plan (BCCSAP)’ in 2009 and established ‘Bangladesh Climate Change Resilience Fund (BCCRF)’ in association with various development partners. 10 percent fund of the BCCRF is being used through NGOs for community level climate related adaptation activities. The Government of Bangladesh (GoB) entrusted PKSF to implement the community-level climate change adaptation activities through Community Climate Change Project (CCCP). Approximately, 38,995 beneficiaries are covered through various activities under CCCP project.

The ‘Social Advocacy and Knowledge Dissemination’ unit of PKSF was established with the objectives to build up awareness on various important issues. It works to disseminate knowledge and ideas for enhancing human capability of the disadvantaged people.

PKSF has formed a ‘Special Fund’ and ‘Programmes-Support Fund’ with its own fund to facilitate the capability of the poor. Besides, PKSF has established a ‘Livestock Unit’ to ensure adequate financial services, dissemination of appropriate technology, capacity building of the borrowers and establish value chain and marketing platform for the livestock products and by-products.

PKSF has also established an “Agriculture Unit” to extend sustainable agricultural technologies and services to marginal and small farmers. The Agriculture
Unit helps the farmers to gain access to resources necessary for agricultural production, employment generation, to ensure food security and to enhance the quality of their lives.

To finance innovations for poverty alleviation, PKSF is implementing ‘Learning and Innovation Fund to Test New Ideas (LIFT)’. Up to June 2015, LIFT has supported a total of 38 innovative initiatives across the country through 49 organisations (33 Partner Organisations-POs and 16 non-POs).

A relatively new yet very widely acclaimed programme, known as ‘Enhancing Resources and Increasing Capacities of Poor Households towards Elimination of their Poverty (ENRICH)’, is being implemented by selected Partner Organisations in different areas of the country with the Unions as the focal areas. Its vision is to create an enabling environment for the poor to achieve a humanly dignified living standard and to strengthen their access to universal human rights.

PKSF is implementing a new project since May 2015 titled ‘Skills for Employment Investment Programme (SEIP)’ jointly financed by ADB, SDC and the Government of Bangladesh. The goal of the project is to develop demand-driven workforce through skills development training and thereby creating more productive employment at home and abroad which in turn would improve their livelihood.

All PKSF programmes are monitored in an intensive way. Evaluation is done by national and international specialists at regular intervals. PKSF takes necessary measures to improve the quality of its activities on the basis of these reports. Strength of PKSF is explicitly evident from its progressive trend of loan disbursement over the last two decades.

PKSF POs

As of 30th June, 2015, the total number of Partner Organisations (POs) of PKSF stands at 274. Since inception, PKSF has been adhering to a stringent set of criteria and following strict procedures to select efficient and committed Partner Organisations (POs). These POs are implementing the programmes and projects of PKSF.
Members and Borrowers

The members of the POs are at the core of all kinds of field level operations of PKSF, who are organised in groups. As of 30th June, 2015, the total number of members of all POs is 11.12 million of which 90.36% are women. As of 30th June, 2015, the number of borrowers is 8.55 million. Out of the total borrowers, the number of women borrowers is 7.80 million, which is 91.24 percent of the total number. (Figure 1.0).

Loan Disbursement and Outstanding (PKSF-POs)

As can be seen in figure 3.0, loan disbursement of PKSF has recorded a steady growth in FY 2012-13 and 2013-14. During the FY 2014-15, the amount of loan disbursement from PKSF to POs stood at BDT 28.24 billion, which is 4.41 percent higher than the previous year. The amount of loan outstanding of PKSF with Partner Organisations (POs) stood at BDT 39.48 billion as 30th June, 2015, (Figure 3.0).

Members’ Savings

With steady growth, savings of members stood at BDT 50.12 billion on 30th June, 2015 (Figure 2.0).

Loan Disbursement and Outstanding (POs-Borrowers)

Loan disbursement from POs to borrowers stood at BDT 184.60 billion by FY 2013-14. During FY 2014-15, the amount of loan disbursement from POs to borrowers stood at BDT 223.44 billion. The amount of loan outstanding of Partner Organisations (POs) with the borrowers stood at BDT 128.23 billion as 30th June, 2015, (Figure 4.0).
## Table-1: Progress of PKSF in Last 25 Years

| FY / Indicators | No. of POs | No. of Members (in Million) | % of Women Members | No. of Borrowers (in Million) | % of Women Borrowers | FY Loan Disbursement (PKSF to POs) | Cumulative Loan Disbursement (PKSF to POs) | Outstanding Loan (PKSF to POs) | Outstanding Loan (POs to Borrowers) | FY Loan Disbursement (POs to Borrowers) | Cumulative Loan Disbursement (POs to Borrowers) | FY ID Loan Disbursement | Cumulative ID Loan Disbursement |
|----------------|-----------|-----------------------------|--------------------|-----------------------------|---------------------|-----------------------------------|----------------------------------------|-------------------------------|--------------------------------|--------------------------------|---------------------------------|-----------------------------------|----------------|-------------------------------|

• Job placement of the trainee |
Jagoron, was initiated as an appropriate financial assistance programme to promote household-based enterprise development in rural and urban areas of Bangladesh. PKSF has started extending its financial services for the rural poor through Jagoron programme from October, 1990. Under this programme, the rural borrowers are encouraged to undertake income generating activities in which the families are involved. Funds are made available with least conventional formalities in the rural areas through the Partner Organisations.

In 1999, PKSF initiated this programme to extend its financial services for the urban poor. In the urban areas, woman participation in Jagoron is higher in comparison to its rural counterparts and since they have higher participation in the labour market, larger access to material resources, greater mobility and meaningful role in the household decision-making process. Jagoron borrowers in urban areas are distinct from the rural borrowers. The urban borrowers are landless squatters and they live in slums or makeshift shacks under the perpetual threat of eviction. They usually take loan for small trading.
The number of urban poor is continuously increasing as a result of forced migration, limited employment opportunities in the rural agriculture sector and recurrent occurrence of natural disasters.

**Lending activities under “Jagoron” in FY 2014-15**

- Loan disbursement of PKSF to its Partner Organisations (POs) under Jagoron is BDT 9203.80 million and outstanding amount of loan has reached at BDT 17616.06 million.
- POs’ disbursement to its borrowers is BDT 104463.30 million and outstanding amount of loan as on 30th June 2015 is BDT 54712.98 million.
- PKSF’s disbursement to its POs under Jagoron Programme has been increased by 10.69% and disbursement of POs to borrowers increased by 19.18% in comparison to the previous year.
- Up to June 2015, total number of borrowers stood at 5.48 million, which is 72.91% of the total members under this loan programme.
- The average loan size under this programme stood at BDT 19157.

Up to June 2015, cumulative loan disbursement from PKSF to POs and POs to Borrowers under Jagoron is BDT 95.12 and 854.22 billion under this programme respectively. Jagoron still dominates PKSF’s loan portfolio with its Partner Organisations (45%).
The Ultra Poor have always been away from traditional financial services in the form of self-exclusion, social exclusion and institutional exclusion. The fundamental reason behind the process of exclusion relates to socio-economic conditions and the state of poor capacity of the poor. At the same time, the rigidity of classical microfinance systems prevents the participation of the ultra poor in the conventional financial services system. In view all of these constraints, PKSF revised its existing microfinance products to address the needs of the excluded ultra poor segment of the society. PKSF has been implementing Ultra Poor Programme (UPP) since 2004, which is now known as Buniad.

Currently, it is the country’s biggest microfinance programme. The Buniad programme is playing a significant role to achieve the Sustainable Development Goals (SDGs) as determined by the United Nations to end poverty in all its forms by 2030. To attain the SDGs, PKSF has initiated short, medium and long term strategic plan for the ultra poor under Buniad programme based on geographical diversity, demographical characteristics, nature of occupation and other heterogeneous conditions.
Under this plan, two approaches such as ‘Service Delivery’ and ‘Policy Advocacy’ have been adopted for improving the standard of living of the ultra-poor. The ultra-poor have been divided into seven groups and again split into 15 sub groups to improve their socio-economic conditions through the initiation of some inclusive programmes. The groups and sub-groups under this plan are:

1. **Class based group** (Sub-group: repressed or socially deprived class; small ethnic groups; and gypsy tribe); 
2. **Occupation based class** (sub-group: tea garden workers, beggars, household workers, sex workers, and agriculture workers); 
3. **Regional class** (Sub-group: ultra poor living at haor areas, ultra-poor living at different chars and islands); 
4. **Class based on health/age** (disabled, street children, and insolvent aged people); 
5. **Environment/climate based class** (sub-group: ultra poor due to environment and climate change) 
6. **Female-headed ultra poor households**
7. **The hermaphrodite.**

An initiative of collecting data from the ultra poor households enrolled under Programmed initiatives for Monga Eradication (PRIME) and Ultra Poor Programme (UPP)-Ujjibito has been undertaken.

As of June 2015, PKSF has organised 1.04 million ultra poor people through 140 Partner Organisations (POs) across the country. Among them, 0.65 million are borrowers. The current average loan size of the borrowers is BDT 12,622. In FY 2014-15, PKSF disbursed a total of BDT 2.16 billion against the budget of BDT 2.22 billion. On the other hand, POs disbursed a total of BDT 8.67 billion in the same period.
PKSF launched its Micro Enterprise Programme in 2001 to extend its financial services to the progressive members of other programmes who are engaged in economic activities that require bigger amount of capital. PKSF upgrades its micro enterprise development policy on the basis of the needs of the entrepreneurs. At present, apart from the progressive clients of other programmes, PKSF provides financial services through its Partner Organisations (POs) to entrepreneurs for expediting employment generation. This Micro Enterprise Programme has recently been renamed as Agrosor. Any business activity with an investment up to BDT 1.5 million (excluding land and building) is qualified to be covered within Agrosor. This programme is being implemented all over Bangladesh through 168 POs of PKSF. An individual entrepreneur can take loan up to BDT 1.0 million for his or her enterprise under the Agrosor Programme.

PKSF has learnt from its experiences that only some limited and strictly-bound conditions of micro finance sometimes may prove to be unfriendly to persons who have skills to enlarge their initiatives.
Lending activities under Agrosor in FY 2014-15

- Loan disbursement of PKSF to its Partner Organisations (POs) under Agrosor is BDT 5518.10 million and outstanding amount of loan with POs under this programme is BDT 10063.14 million.
- POs’ disbursement to its borrowers is BDT 62266.78 million and outstanding amount of loan as on 30th June 2015, is BDT 35993.18 million.
- In comparison to the previous year, PKSF’s disbursement to its POs under Agrosor has increased by 7.62% and disbursement of POs to borrowers has increased by 22.87%.
- Up to June 2015, total number of borrowers stands at 0.73 million, which is about 87.91% of the total members under this loan programme.
- The average loan size under this programme is BDT 81835.

Up to June 2015, cumulative loan disbursement from PKSF to POs and POs to borrowers under Agrosor is BDT 31.04 and 241.71 billion respectively.
The performance of agriculture sector has an overwhelming impact on major objectives macroeconomic development like employment generation, poverty alleviation, human resources development and food security in Bangladesh. Our agriculture is heavily dependent on favourable weather. The entire harvest can be wiped out in case of sudden natural disasters.

The lack of access to finance for agricultural production has always been one of the major constraints of the farming communities, in particular, small and marginal farmers. Higher degree of covariant risk, inadequate agricultural credit services of formal institutions, and the rigid operational modality of available microfinance has hindered the inclusion of farmers into the mainstream financial system. In view of the diverse financial needs of the farmers, PKSF has been implementing a specially designed agricultural lending programme since 2005. This programme has recently been renamed as Sufolon. The salient features of this service include provision of flexible repayment mode, such as one shot or a single installment, seasonal or balloon repayment, consistent with
the seasonal agricultural activities and the flexibility of having multiple loans to diversify their production. The target people of Sufolon are well defined and selected through a very meticulous process. Special attention is given to disburse the loan on time.

Since its inception, this unique financial assistance has received tremendous response for the investment of different Income Generating Activities (IGAs) such as crop cultivation and processing, livestock, fisheries, agro-forestry, agro-processing etc. The flexible repayment of this product has made it very popular among the borrowers, especially those engaged in beef fattening and crop cultivation.

As of June 2015, PKSF organised 4.8 million Sufolon participants through its 165 POs. In FY 2014-15, PKSF’s disbursement to its POs under Sufolon has been BDT 9691.30 million which is 34.31% of the total budget during the period, POs disbursed BDT 27966.56 million to 8,82,765 borrowers. Large number of borrowers have been successfully utilizing their loan in different IGAs invested in more than 22 categories of farm and off-farm activities.

The following table shows the major categories of Sufolon till June 2015.

More than 62% borrowers have invested their loan amount in crop production followed by 26% in beef fattening; about 9% in livestock rearing and fish culture, whereas about 3% in seasonal business and others.
PKSF established the Agriculture Unit in June 2013 in order to increase agricultural production through extending sustainable agricultural technologies and services to the door-steps of marginal and small farmers. The Agriculture Unit is supposed to enable the farmers to gain access to resources necessary for agricultural production, employment generation, and enhancement of the quality of their lives. Agricultural Unit seeks to ensure sustainable agricultural development through financial services, technology and information dissemination, capacity building and management and product quality improvement and marketing opportunities. PKSF Agriculture Unit has been working as a supplementary service provider to similar government agencies which are involved in developing the agriculture sector of Bangladesh.

The major objectives of this Unit are: to provide microfinance services based on the seasonality of agricultural activities; to provide useful, modern and environment-friendly agricultural technologies; to establish market linkages of agricultural products. Agriculture Unit looks after crop management and practices as well as fisheries.
In the fiscal year 2014-15, Agriculture Unit made budgetary allocation of BDT 6.27 crore (of which BDT 3.13 crore for agriculture and rest BDT 3.14 crore for fisheries) in favour of 37 Partner Organisations (POs). The unit intervention area includes 50 upazilas of 25 districts with focus on the working areas including Agro Ecological Zone (AEZ).

Agriculture Unit has so far established 3826 environment-friendly, highly productive and technology-based demonstrations by providing 2,310 porous pipes, 28,440 pheromone traps, 23.04 metric ton Urea Super Granule (USG) to the farmers. In addition, a number of demonstrations were in place in order to popularise high yielding varieties of different crops. A specific method of demonstration on compost preparation has been made to optimise the use of bio-fertilizer. A total of 143 field days have been arranged to disseminate the positive results of implemented demonstrations to a large number of farmers. Besides, a total of 1869 demonstrations of pond/gher are in place. These demonstrations include carp-mola fish polyculture, native variety (shing, magur, koi, tengra etc) fish culture, Vietnamese koi culture, crab fattening and carp-prawn polyculture. Agriculture Unit has also established over 500 ‘Agriculture Counseling Centres in which Upazila Agriculture Officer, Upazilla Fisheries Officer, Upazila Livestock Officer meet regularly to discuss on different issues relating to agriculture, fisheries and livestock.

To expand the new technologies effectively, a total of 284 batches (of 6,940 members) local level training sessions have been organised on crop production and fish production with the help of the Department of Agricultural Extension (DAE) and Department of Fisheries (DoF). Training for 925 PO level officers on ‘Implementation Strategy of Agriculture Unit and Livestock Unit’ was provided at different PO training centres. Agriculture Unit also organised training sessions for 170 Agriculture Officers of POs on ‘Seed Preservation Technology’ and ‘Production Technology of Summer Vegetables’ at Rural Development Academy (RDA), Bogra and Bangladesh Agriculture Research Institution (BARI) respectively.

In 2014-15, Agriculture Unit emphasised on cluster-based demonstrations on proven profitable technologies; crop intensification through crop diversification; Good Aquaculture Practices (GAqP) at the farmers level for better fish culture; High Yielding Varieties (HYV) of crop to increase production; drought, flood and saline-tolerant varieties of rice; adaptive, participatory, and/or validation trials of new technologies and new seed varieties like zinc enriched rice and summer tomatoes; use of Urea Super Granule (USG); Alternative Wet and Dry (AWD) method and organic fertilizer (compost).

The unit is also working on the promotion of vegetable cultivation at pond-dykes using perch method; enhancement of homestead gardening and fish production, dissemination of low-cost indigenous technologies relating to seed production and preservation and facilitating technical assistance among the farmers and the PO officials through the linkage with different research, educational, and extension organisations.

The following table shows the activities of Agriculture Unit in FY 2014-15.

PKSF has been working towards poverty alleviation through sustainable development of the poor and ultra-poor with appropriate financing. A large part of PKSF financial assistance is being used for farming activities especially in livestock production. Proper implementation of livestock related income generating activities can alleviate poverty of these borrower households and help ensure their income and food security. PKSF established the Livestock Unit in 2013 to address this issue.

The objectives of Livestock Unit are: to ensure adequate financial service; dissemination of appropriate technology; build the capacity of the borrowers and establish value chain and marketing system for the livestock products and by-products.

This unit renders its services to the farming community under the Operations Division of PKSF through its field level POs. LU demonstrated improved production technologies on goat rearing, dairy cattle production, beef fattening and vermicompost...
production among selected beneficiaries of its selected POs in the financial year (FY) 2013-14. A total 1350 demonstrations were made at 25 Upazilas in 30 districts. During this time, LU trained 100 staff of POs and 210 beneficiaries on appropriate technologies.

In FY 2014-15, the activities of LU have been carried out by 37 POs of PKSF at 27 upazilas in 49 districts. During this period, LU has provided allocation to on-farm demonstrations of livestock technology, farmers’ training on improved livestock farming technologies and vaccination and deworming of livestock for preventing their diseases. Accordingly, LU is implementing rearing of bucks, broilers, layers, sonali chicken, duck, quail, rabbit as well as fodder production technologies. Up to June 2015, about 6472 demonstrations have been completed against the target of 6595 (rate of achievement 98%). LU has provided training to 11,425 beneficiaries on different livestock technologies.

LU has vaccinated (i.e. FMD, anthrax, PPR, BCRDV, RDV, duck plague) 2,87,960 animal and distributed 55200 deworming bolus to the large and small ruminant animals.
PKSF is committed to human centered development. So it puts its efforts to look after education and health along with providing of financial services and training to the poor. That's the key to achieve sustainable poverty alleviation. PKSF attaches importance to the tasks of creating social awareness among the common people and to keep them updated by disseminating various information and knowledge necessary for social development.

Social Advocacy and Knowledge Dissemination Unit of PKSF has been working to create and foster social awareness on critical contemporary issues and disseminate relevant information since 2013.

Counselling, lobbying, bargaining, negotiating, networking and social auditing are the popular strategies. The Unit also arranges talk shows, publishes awareness-based advertisements, short plays and documentaries to motivate people. The use of educational materials like flipcharts, leaflets, posters and booklets; organization of study tours or issue-based training; establishment of local knowledge centres and
network; publicity through mobile cinema vans and community radio are some of the tools regularly used by this Unit.

This Unit has so far published posters on Drug Addiction; Use of Formalin in Food Products; Eve-teasing; Prevention of Early Marriage; Child Nutrition; Snake Bite; To Dos & Caution; Safe Food; Child labor; Human Trafficking; Drowning: Caution & Recovery; Repression on Women; Dowry; Child Rights; Immunization; Education; Health; Gender Equality etc.. The mobile cinema van is a very useful tool in distributing technical information and showing awareness-based documentaries to the grass root people. During the FY 2014-2015, the Unit sent such vans to 42 spots of different working areas of the POs. The unit regularly updates the POs about agricultural and livestock related information. The Unit also observes important national and international days to motivate people and disseminate information.
European Union funded “Food Security 2012 Bangladesh-Ujjibito” project started its operation from November 2013. The Bangla word Ujjibito means infused with new life. This project has two components-- one supports LGED’s Rural Employment and the other Road Maintenance Programme Phase-2 (RERMP-2), which commenced from October 2013. RERMP-2 is a GoB-funded project which covers all unions of the country while EU provides funds for 27,400 beneficiaries in 1,370 focal unions in Barisal, Khulna and Rajshahi Divisions (except Bogra district). The other component is supporting PKSF’s Ultra Poor programme (UPP)-Ujjibito covering 1,724 unions in Barisal, Khulna, Rajshahi and Chittagong Divisions (1,479 in Barisal, Khulna, Rajshahi and 245 unions in the coastal upazilas of Chittagong Division), in which implementation started from November 2013.

The project has incorporated the learning of numerous forms of food security and social safety net projects targeting ultra poor that have been implemented in Bangladesh over the past decade. Ujjibito project mostly combines the best practices of the GoB funded Rural Employment and Road Maintenance Programme
(RERMP), the EU co-funded Rural Employment Opportunities for Public Assets (REOPA) project and PKSF’s Ultra Poor Programme, with the objective of sustainable graduation from rural ultra poverty through a combination of public safety nets, social and livelihood development support and longer term linkage with micro-finance.

Ujjibito provides training on skills development for household level entrepreneurship, non-agricultural employment opportunities, vocational training for youths and grants to the extremely poor households specially the female-headed households and families with disable members, cash for Work (road maintenance). It further provides counselling on primary health care and nutrition and organise courtyard sessions on social issues and community events.

Skills for the enhancement of productivity and family income

In FY 2014-15, Ujjibito provided training on agro-based farming to 9,639 UPP members and 7,500 RERMP-2 members, vocational training to 2,150 young women members of UPP families. During this period, Ujjibito also provided grants to 1285 extreme poor households. It also extended help to vaccinate 262,279 livestock.

Knowledge on health and nutrition for sustainable poverty reduction

To improve the nutritional status of the rural poor, UPP-Ujjibito makes health and nutrition-specific interventions and nutrition-sensitive interventions. The target groups are pregnant women, lactating mothers, children under 5 and adolescent girls. Nutrition-specific interventions include regular counselling on Infant and Young Child Feeding (IYCF); consumption of locally available nutrient-rich food, feeding practices for lactating women and adolescent girls.

To improve food security and nutrition and well-being of health, UPP-Ujjibito has also been implementing different nutrition-sensitive interventions. These include distribution of seeds for establishing homestead vegetable garden and semi-commercial farm beside the home of the ultra poor families; providing PPR, RDV, BCRDV and other vaccines and medicines for their animals and providing grants to the vulnerable ultra poor families to establish suitable income generating activities, such as goat rearing, broiler farming, beef fattening, cow rearing.

Local initiatives to mobilise public opinion and support to create social awareness

This project tries to address the access to basic services and rights. The project motivates people to participate in different social activities, understand the importance of schooling of their children. The project also organises community events to sensitise people on different social issues.
PKSF has started a new project titled “Skills for Employment Investment Programme (SEIP)” to generate employment by providing demand-driven skill development training to eligible participants selected from low income households of the country. SEIP has taken off its journey on May 7, 2015.

The goal of the project is to develop demand-driven workforce through training and thereby placing them into self and wage-based employment at home and abroad. To achieve this goal, SEIP aims to ensure self and wage-based employment to at least 70 percent of the trainees through different training institutions and Partner Organisations of PKSF.

The Finance Division of the Ministry of Finance, Government of Bangladesh (GoB) is working as the executive agency to implement this project. The Finance Division has established ‘Skill Development Coordination and Monitoring Unit (SDCMU)’ to implement the project. Under the direct supervision of SDCMU, different organisations including PKSF are implementing this project. Asian Development Bank, (ADB) Government of Bangladesh (GoB)
and Swiss Agency for Development and Cooperation (SDC) are jointly financing the project.

In the first phase, PKSF plans to create employment opportunities for 10,000 young people by providing them skills training. Under the SEIP project, the youths belonging to the families connected with micro-credit programmes of PKSF will receive three and six-month long technical and vocational training on 15 areas.

**Recent Development of SEIP**

A Project Management Unit (PMU) consisting of 15 staff has been formed to implement the SEIP project. A 4-day foundation training has been provided to the PMU members on project implementation plan, rules and working procedures of PKSF. 84 Partner Organisations have been selected to implement the SEIP project. A series of workshops has been conducted with the POs to finalise the details of the trainee selection process. In view of the overall institutional capacity, 22 reputed training institutions have been selected to provide quality training to the selected trainees in different regions of the country. Six batches of training have already been started in four different training institutions from December, 2015.
COMMUNITY CLIMATE CHANGE PROJECT (CCCP)

Bangladesh is one of the most vulnerable countries in the world facing the potential negative impacts of climate change. In view of the nature and magnitude of the potential adverse impacts of climate change and the required efforts for enhancing resilience, the Government of Bangladesh (GoB) adopted Bangladesh Climate Change Strategy and Action Plan (BCCSAP) in 2009.

PKSF is implementing “Community Climate Change Project (CCCP)” as an adaptation intervention that aims at enhancing the capacity of selected communities at different disaster-prone areas of the country to increase their resilience to the adverse impacts of climate change. Various programmes are being implemented through a number of sub-projects known as the Project Implementing Partners (PIP). The total budget of CCCP is BDT 96.25 crore (US$12.5 million) and duration of the project is until December 2016. Flood, drought and salinity-affected vulnerable areas have been specifically identified as the working areas of the project.
Sub-project Implementation
A total of 41 project implementing partners (PIPs) of CCCP are working at 36 climate vulnerable upazilas under 15 districts of Bangladesh. The targeted beneficiaries of CCCP are the poor and extreme poor population of the country who are the most vulnerable sections due to the adverse impacts of climate change. Total number of beneficiaries is about 38,795 households (HHs) and 76,475 community people.

Major Field-level Activities
Raising homestead plinth; Installation of tube-wells and deep tube-wells; Rain Water Harvesting; Establishing desalination plant; Pond re-excavation for safe drinking water; Canal re-excavation for irrigation; Installation of improved/environment-friendly cooking stove; Installation of sanitary latrine; Demonstration of climate resilient crop; Pumpkin cultivation at char areas; Repairing of road/embankment with tree plantation; Production of renewable energy; Implementation of various Income Generating Activities (crab fattening, goat rearing, poultry farming, duck rearing, sheep rearing, homestead gardening, fodder production, vermi-compost production etc.)

Training, Workshop & Seminar
CCCP organised a 3-day residential training on “Environmental Safeguard & Management of CCCP Interventions and Finance & Accounts” for 14 new NGOs on 14-16 February, 2015.
A workshop was organised on “Desalination Plant” at PKSF Bhaban on 11 January, 2015. Presentations were given on “Overview of desalination plant” and “Technical, financial and community mechanism issues of desalination plant”. Then an open floor session followed.
An exchange visit on the process of desalinization plant and the benefit of its usage was organised by Nowabenki Gonomukhi Foundation (NGF) from June 16 to 18, 2015.

A half a day workshop on “Climate Financing” was held at PKSF Bhaban on July 2, 2015. Officials of PKSF, climate experts, government officials and some high officials from NGOs attended the workshop. Presided over by Dr. Qazi Kholiquzzaman Ahmad, Chairman, PKSF, the workshop focused on some key background information on climate change and its financing from some national and international perspectives.
A seminar, jointly organised by PKSF and Friendship titled “Road towards Paris” was held on August 30, 2015 at the conference room of PKSF Bhaban.

World Bank Mission
Two World Bank teams carried out the fourth implementation support and mid-term review mission support for CCCP. The Fourth Implementation Support was carried out during October 12-27, 2014 and the Mid-term Review Mission Support from May 18 to June 11, 2015. As part of the mission, the World Bank had several meetings with the Project Management Unit (PMU) and PKSF management. The team of WB mission visited project sites of 4 PIPs in each mission. The members of the mission also met the representatives from the 24 PIPs including 14 new PIPs in PKSF during their mid-term review mission.

Knowledge Management Capacity Building
A Knowledge Management and Capacity Building Strategy has been developed by the PMU. This strategy will also support a structured learning process for capturing lessons and incorporating best practices into the design and implementation of community-based interventions.

Community Climate Change Project has developed its own website (www.pksf-cccp-bd.org). Besides, CCCP library corner is being regularly updated with new books, journals and climate related articles to ensure archiving of knowledge on climate change and environment issues.
PKSF launched Promoting Agricultural Commercialisation and Enterprises (PACE) in January 2015. The project is being jointly financed by PKSF and International Fund for Agricultural Development (IFAD).

The project goal is to sustainably enhance the livelihoods (higher income through self employment, business profit and wage employment and food security) of the moderate and extreme poor project participants (men and women). The development objective is to create and improve profitable business opportunities for micro-entrepreneurs and facilitate wage employment of extreme and moderate poor people. PACE will further strengthen the Agrosor (ME) programme of PKSF.

Prior to the PACE Project, PKSF implemented three other IFAD funded projects. PACE Project has been designed on the basis of the experience and learning of the earlier three projects to further expedite the process of poverty reduction by promoting micro-enterprises in the country.
The financing agreement of the project was signed on 11th December 2014 between the Government of Bangladesh and IFAD. Subsequently, PKSF signed a Subsidiary Loan and Grant Agreement (SLGA) with the Ministry of Finance on 18th January, 2015 as the Project Implementation Agency (PIA).

The start-up workshop of PACE project was held on March 4, 2015 at PKSF Auditorium. Mr. MA Mannan, MP, Hon'ble State Minister, Ministry of Finance and Planning, was the Chief Guest of the programme while Mr. Mohammad Mejbahuddin, Senior Secretary, Economic Relations Division, Ministry of Finance attended as the Special Guest. Dr. Qazi Kholiquzzaman Ahmad, Chairman, PKSF presided over the workshop.

PACE project is now being implemented all over Bangladesh through the POs of PKSF. The total cost of the six-year project is USD 92.85 million, where IFAD contribution is USD 40 million while PKSF and its Pos will provide USD 52.489 million. Besides, Korean grant fund of USD 0.36 million will be included in the budget to establish an e-market platform.

The project has three complementary components:

1) Financial services for micro-enterprises, 2) Value Chain Development, and 3) Technology and Product Adaptation. Out of the total budget of USD 92.85 million, USD 70.592 million will be spent for financial services for micro-enterprises; USD15.01 million will be spent for Value Chain Development and USD 0.879 million will be spent for Technology and Product Adaptation. Remaining USD 6.388 million will be used for project management.

**Financial services**

PKSF has made a good progress in disbursing loans for micro enterprises during the first six months (from January to June 2015) under its Agrosor programme supported by the PACE project. The net disbursement during this period was BDT 511 million. Moreover, PKSF is going to introduce new financial initiatives like start-up capital and lease financing to address different types of the needs of micro enterprises.

**Value Chain Development**

Under the Value Chain Development component of the project, PKSF is making value chain interventions in various farm, off-farm and service sectors to help upscale their businesses, adoption of appropriate technologies, enhancing productivity and ensuring access to markets in a sustainable manner. The outputs of the component are expected to: a) establish and expand value chains of 15 agricultural sub sectors (products or group of products) in various parts of the country; b) establish and expand value chains for 15 non-farm manufacturing, processing and service sub sectors (products or group of products) across the country; c) strengthen capacity of PKSF and POs to manage large-scale value chain subprojects; d) enhance capacity of PKSF and POs to identify, advocate and strengthen pro-poor business policies, especially sector specific policies; and e) set up an internet-based platform to transact products of micro entrepreneurs.

In the first 6 months of the project, PMU has taken a value chain development sub project namely ‘Income and Employment Generation through Cow rearing in Char Areas’ to develop the cow rearing sub sector. This is being implemented in 5 upazilas (sub-district) of Tangail district. A total of 5,000 farmers are receiving technical and technological support under this initiative.

**Technology and Product Adaptation**

PKSF will make attempts to solve technological problems that exist in different potential sub-sectors under PACE project. The proven technologies will be brought both from home and abroad to expedite the growth of the sub-sectors. PKSF has taken steps to set up crab hatcheries in the southern coastal areas of the country. A study to assess the possibility of establishing crab hatcheries will be conducted soon. The crab hatchery technology will be brought from Vietnam to Bangladesh if the feasibility study shows the positive results.

**Capacity building**

PACE organised two training courses for the officers of PKSF and its POs on Micro-enterprise Management. Bangladesh Institute of Management (BIM) conducted the training. A total of 25 officials from POs and 24 officials of PKSF attended the training courses.

A training course was organised on Value Chain Project Design and Management for PKSF officials to enhance their capacity in managing value chain interventions. 25 officers of PKSF participated in the course.

Moreover, two workshops on Value Chain Development were organised during the period. 50 representatives of different POs attended these workshops.
Programmed Initiatives for Monga Eradication (PRIME) was designed in 2006 specifically to work in the north-western region of Bangladesh which faces acute hunger during the pre-harvest months of October and December. This period locally known as Monga is characterized by minimal food and a dearth of earning opportunities for the landless and wage labourers in the region. Later, PRIME started working in the natural disaster-prone south-western areas since 2010, which were earlier hit by cyclone and other calamities like Aila and Sidr, and have been suffering from water salinity and acute poverty after the disasters.

The objective of PRIME is to prevent adverse consequences of Monga in the north and Monga-like situation in the south as well as to ease economic hardships faced by the ultra poor in short term while alleviating poverty in long term periods.

PRIME works with over 500,000 ultra-poor, of which 87% had a land ownership of about 0.17 decimal including homesteads. Of the total target group, 70% are from north-western areas and about 30% are from south-western areas. PRIME offers financial and non-financial services in order
to build up human capital, diversify livelihood options and prevent health and nutrition related asset depletion.

PRIME, since 2007, has been targeting the ultra poor households (HHs) with a target of over 0.51 million households. Till June 2015, it has served 0.51 million of ultra poor HHs in the north-western, south-western and north-eastern region of Bangladesh.

The achievements of PRIME are noteworthy. For example: (i) income of the households (HH) has increased from Tk.37,000 in 2008 to Tk.79,600 in 2014 by 114%; (ii) in 2007, only 4% of the people in Monga areas had food security, ensuring three-meals a day, but in 2014, the percentage remarkably increased to 97%; (iii) monthly working days during the Monga period in 2007 was virtually non-existent but it has now increased to an average of 21 days/month or 251 days/year for each household; and (iv) total family assets (savings and material assets) have also increased significantly, from Tk.61,700 in 2008 to Tk.211,000 in 2014, by 240%. By the end of PRIME Phase II, it is expected that about 70% of the total target beneficiaries will be graduated, the percentage of vulnerable group members will be below 10 and the transient beneficiaries will be maintained at or be around 20%.

Access to financial services: One of the goals of PRIME is to increase poor households’ access to and usage of formal financial services by 70% over that of the base line which was less than 30% in 2007. By June 2015, over 79% of PRIME households have access to and usage of formal financial services at least once during their involvement in the PRIME programme.

Food Security: In 2007, nearly 96% of the PRIME extreme poor HHs were severely food-insecured especially during the Monga (lean period). While over 50% of PRIME HHs used to suffer from occasional starvation during 2007, by 2013 over 97% of PRIME HHs are now fully food secured. Besides, during the same time, dietary diversity score as determined by (USAID) of average PRIME households is 6, which indicates relatively higher standard of diversified food of an average PRIME HH.

Employment of extreme poor HHs: PRIME has started its work to reduce extreme poverty especially during Monga (lean period). After eight years of intervention, nearly 94% persons of the PRIME HHs are employed during the Monga period.

Value for money: PRIME has made a significant impact on a large number of ultra poor HHs, but altogether it has spent less than $100 dollars per beneficiary, which is the highest cost benefit ratio among all extreme poverty alleviation programmes in Bangladesh as can be seen in the following Figure.

Cost benefit ratios of different extreme poverty programmes in Bangladesh

LEARNING AND INNOVATION FUND TO TEST NEW IDEAS (LIFT)

LIFT project is being implemented since 2006 to encourage and patronise innovative financial and non-financial initiatives intended to benefit the poor through improvement of livelihood, generation of sustainable employment and development of health and education and help develop new tools for poverty eradication. LIFT fund is open for both partner and non-partner organisations in order to experiment and implement the pro-poor innovative ideas on a larger scale.

PKSF uses an innovation matrix to classify innovation and evaluate LIFT proposals. LIFT fund has been disbursed among the project implementing organisations both as loans and grants on the basis of the different nature of projects.

LIFT has supported a total of 38 innovative initiatives across the country through 49 organisations (33 Partner Organisations-POs and 16 non-POs) by June 2015. An amount of BDT 717.73 million has been sanctioned against these projects as of June 2015, of which BDT 680.04 million has been allocated as loan and BDT 37.69 million as grant. Up to June 2015, a total of BDT 613.54 million...
has been disbursed as loan and grant. By this time, BDT 332.85 million has been recovered against the disbursed amount of loan.

Some of the LIFT initiatives have remarkable impact on sustainable economic growth of the extreme poor. It has helped promote land leasing loan products for the extreme poor of char and remote areas. It has strengthened the capacity of ultra poor people by ensuring self-employment opportunities and food security. Introduction of scientific rearing of Black Bengal Goat is another specialised loan system introduced by LIFT. LIFT has provided access to financial services to a large number of extreme poor in the hoars of Kishoreganj and Netrokona. This project has yielded a specialised loan-product that brought over 15 thousand ultra poor beneficiaries under financial services.

Development of poor-friendly and craft-based enterprises for the extreme poor is another successful Monga mitigation measure of LIFT. Production and marketing of export-oriented Omanian cap have created wage-employment for thousands of monga-affected households at Gaibandha and cyclone AILA and SIDR-affected coastal region of Bangladesh. LIFT also introduced contract dairy farming through Kazi Shahid Foundation (KSF), a non-PO of PKSF, in Panchagarh district. Under this initiative, high yielding native and crossbred lactating dairy cows (with calves) are distributed among poor and ultra poor household on contract-farming basis. This has yielded a sustainable dairy production model, which is potentially important for replication with PKSF POs across similar agro-ecological conditions of the country.

In order to ensure supply of the low-cost potable water among the coastal poor, LIFT has established ‘Reverse Osmosis Plant’ in salinity-prone Satkhira and Khulna districts. This project is being implemented by two POs of PKSF. This project has already proved itself to be quite effective for the coastal poor.

LIFT has introduced saline-tolerant rice seeds among the farmers of coastal areas. This initiative showed remarkable progress in ensuring quality saline-tolerant rice seeds to the coastal-farmers. In view of the impact of this project, PKSF has recently taken an initiative to expand drought-tolerant variety of rice seeds among the farmers of Chuadanga.
Poverty reduction is one of the main challenges for a densely populated country like Bangladesh. The country stands among the most vulnerable nations to global climate change. Various individual and catastrophic shocks had severe impact on the lives and livelihoods of the poor. Such shocks adversely affect their ability to improve their social and economic welfare. There is very limited and unreliable alternative formal institutional mechanism of the risk mitigation for these people.

To address the risk mitigation needs of the poor and low-income segment of population, PKSF implemented a pilot MI project from January 2010 to December 2014 titled “Developing Inclusive Insurance Sector Project (DIISP)”. The Project was financed by the Japan Fund for Poverty Reduction (JFPR) with administrative support of the Asian Development Bank (ADB). The project was successfully completed in December 31, 2014.

A nationally representative and comprehensive MI market assessment survey among the poor and low-income population was conducted under the project to analyze their demand and to compile actuarial data for product development.
The Project designed a variety of life, health and livestock insurance MI services utilising the baseline data.

PKSF has shared the draft regulatory guidelines with Micro-credit Regulatory Authority (MRA) to facilitate the development of MI regulatory framework. The Project has extended capacity building training on MI operations to over 760 officials of 40 participating MFIs.

MI awareness creation campaigns were carried out in more than 160,000 households under 80 branches of 40 MFIs (2 branches were chosen from each MFI). The participating MFIs have played a crucial role in increasing insurance education to over 5.52 million policyholders at the underwriting stage during the MI pilot-test. Utilization of various instruments (e.g. short plays, posters, brochures, health cards, etc.) has helped enhance the efficacy of the campaigns on creation of awareness.

The project successfully piloted credit life insurance, livestock (cattle) insurance and hospital insurance services along with a basic healthcare (paramedic) service among the poor and low-income people through 40 partner MFIs. More than 5.52 million MI policies were issued by the 40 MFIs and over 23 thousand claims were paid under credit life, hospital and livestock insurance schemes during the pilot phase (September 2013 to December 2014) of the project.

### Status of MI Pilot-testing (at a glance up to December 2014)

In addition to hospital insurance services, a basic health care service has been extended to the households under 80 branches of 40 MFIs under which 2,64,016 patients received treatments from full-time paramedics and part-time doctors, 2,24,056 million beneficiaries participated in health-awareness campaigns and 8,037 patients received referral services from the paramedics.

PKSF created a ‘Covariant Risk Fund (CRF)’ to provide an alternative form of reinsurance services to the partner MFIs. PKSF initially contributed BDT 50 million to CRF from its own resources.
ENRICH

PKSF decided in 2010 to pilot an integrated approach to poverty eradication to help strengthen the sustainable development interventions existing in the country. This programme titled “Enhancing Resources and Increasing Capacities of Poor Households towards Elimination of their Poverty (ENRICH)” focuses on the comprehensive needs of the households. A total of 150 unions are already under the coverage of the programme.

The overall vision that underpins the ENRICH is to work with the poor, to create an enabling environment for them with the optimum use of their resources to achieve a humanly dignified living standard and to enjoy universal human rights. Under this new approach, the integrated action programme includes the key components of education, skill training, technology, information, health services, food security and nutrition, awareness raising, facilitating access to asset, social capital formation, infrastructure, climate change adaptation, insurance services, market linkages and so on.

ENRICH is being implemented in each selected union by the selected POs of PKSF, the union
parishad, and the members of the programme in a unique kind of partnership that coheres and specifies differentiated responsibilities for the partners.

Key ENRICH Components

Health: This component is designed to provide comprehensive primary healthcare services to all households in the selected unions. There are now 260 health assistants and 1,852 health workers. A total of 140,136 households have been given health cards up to June 2015. So far, 335,912 and 295,456 patients have been treated in static and satellite clinics respectively, and 584 health camps have been organised in which 108,621 patients have been treated and cataract operation on 6,511 persons was performed.

100 percent safe sanitation has been ensured under the ENRICH. So far, 13205 sanitary latrines have been installed at all homes in 11 unions. The same will be ensured in other ENRICH unions in phases.

Cooking Stoves and Solar Power: Distribution of a health and environment-friendly improved cooking stove, commonly known as Bandhu Chula, is another distinctive initiative under the ENRICH. The households are encouraged and facilitated to replace conventional cooking methods with Bandhu Chula. It substantially reduces the risk of smoke-related health hazards and exposure to fire. As of June 2015, a total of 12,140 Bandhu Chulas have been distributed in 43 ENRICH unions.

Solar lanterns are being distributed, particularly for children’s use to study at night. A total of 33,247 solar home systems have been distributed up to June 2015 in 43 ENRICH unions.

Education: The ENRICH education component primarily seeks to address the problem of drop-out of children from primary level education. Students up to Class 2 are helped in these centres to prepare the next day’s tasks, given the fact that often there are no facilities and educational support for many students at home. In 4,146 afternoon education centres in 143 unions, 4,146 teachers are assisting 112,000 students (girls and boys), as of June 2015. The dropout rate among these students, as they move up to Class 3, has come down to less than 1%, while it is about 5% nationwide.

Special Credit Services: Three types of special credit services have been designed for the ENRICH households: Income Generating Activities Loan (IGAL), Livelihood Improvement Loan (LIL) and Asset Creation Loan (ACL). All the three credit services can be accessed simultaneously by a household. As of now, the ceiling of this loan is BDT one million (US$12,820) and the maximum service charge is 25% on a declining method. The ceiling of LIL for a household is BDT10,000 (US$128) and the interest rate payable is 8% (on the basis of declining balance method). The ACL ceiling for a household is BDT 30,000 (US$385) and the interest rate payable is 8% (on the basis of declining balance method). Up to June 2015, a total of BDT 7,141.60 million (US$91.56 million) has been disbursed under these three loan schemes in 43 ENRICH unions. Some
65,014 individuals have received these credit services so far and a total of 83,778 individuals have access to savings services.

Special Savings Scheme: A special savings scheme has been designed under ENRICH for the ultra-poor households. Female-headed households and households with disable members are particularly eligible to join this scheme. Such a household is advised to open a bank account and deposit some money (at least BDT100=US$1.28) into it per month for two years. The amount saved is matched by PKSF, in terms of grant, at the end of two years to a maximum of BDT 20,000 (US$256) on the condition that the total amount will be used to acquire an asset (e.g. land, farm animals, skill upgrading of household members etc.) in consultation with the concerned PO and PKSF. Till June 2015, 210 members in 16 (Phase 1) unions have been given a total grant of BDT 3.78 million (US$48.5 thousand) under this savings scheme.

Plant Cultivation: Medicinal plant cultivation is one of the innovative actions under ENRICH, along with various other IGAs. A household can earn up to BDT 2,500 (US$32) per month by cultivating about 1,200 Bashok plants on 10 decimals of marginal lands. An initiative has been undertaken to promote the cultivation of medicinal plants, primarily Bashok, in the homeyards of all ENRICH households.

Youth Development and Job Linkage: Job linkage initiative within the framework of the ENRICH youth development component maintains liaison with different employers and organises job fairs to assist the young unemployed persons to find jobs. A total of 928 young individuals have, as of June 2015, found employment opportunities in G4S, PRAN-RFL, and The ACME Laboratories Ltd. through this process.

Community Level Action: Under its union/community-level development component, ENRICH promotes repairing or building of culverts, bridges, and sanitary latrines and shallow tube-wells in public places such as schools, bazaars, colleges, madrasas, mosques, temples, and libraries. Up to June 2015, 1,646 sanitary latrines, 1,316 tube-wells, 35 deep tube-wells and 35 Pond Sand Filters (PSF) have been built or repaired in 43 unions. Moreover, 748 small culverts/bridges have been constructed.

Beggar Rehabilitation Initiative: The beggar rehabilitation initiative is a new and challenging thrust of ENRICH that targets the street beggars to transform them in to productive members of the society. In the 1st phase, a total of 213 beggars have been successfully rehabilitated. The programme follows a customized rehabilitation plan formulated for every participant in cooperation with their respective Union Parshods. Under this programme, each participant has received a financial grant of BDT 1 lac on the condition that he/she would use 70% of the grant in a sustainable Income Generating Activity (IGA).

**ENRICHed Home**

An ENRICHed home is a new, ideal and yet a practical example. Such a home must have a sanitary latrine and, usually, a tube-well for safe drinking water. Economic activities conducted at the homestead include livestock, poultry, and pigeon rearing; cultivation of vegetables and lemon, fruit, and medicinal plants, either a solar home-system or a biogas plant and an improved cooking stove. Environment-friendly fertilizer vermi-compost is produced by the household for its own use and/or for sale.

**ENRICH Centre**

Such centres have been built in many of the Unions. These have become very efficient community hubs. The villagers share their various problems, find solutions in togetherness and become mutually benefitted. These centres have qualitatively enriched community activities.
PKSF initiated Programmes-Support Fund (PSF) in 2011 to ensure health care and education for the people who are not eligible for other programmes and projects.

As of June 2015, PKSF has transferred BDT 2.0 billion of its own capital to PSF, which will be increased to BDT 5 billion in future.

Under PSF programme, scholarships are provided to the meritorious students of PKSF programme and project participants. In 2015, PKSF awarded scholarships to 1590 students. The amount of the scholarship is BDT 18,000 each per anum. These students are provided with two consecutive scholarships in case of their promotion from class XI to class XII. Since 2011, a total of 3155 students have been awarded scholarships.

From January, 2014, PKSF is implementing a project through its PO “Sheba Nari O Shisu Kallyan Kendro” in Savar for the orphans and afflicted children of the Rana Plaza disaster. This initiative has been designed to meet the educational and nutritional needs of the children of those families which have been economically crippled by disaster. The budget of this initiative is BDT 5 lac for 2015.
Due to geographical location, Bangladesh is one of the most disaster-prone countries in the world. Humanitarian crises or natural disasters are common phenomena in Bangladesh. And these bring in plight of varying degrees for the people, particularly the poor. Sudden and tremendous fluctuations of fortunes of the people often have terrible impact even on the regular socio-economic development activities of the country. Mitigation measures and immediate material help become an urgent necessity. To help them cope with and recover from the disasters, PKSF has created a Disaster Management Fund (DMF) to provide quick financial assistance to the poor families; prevent them from selling advance labour or valuable assets and enable them to lead a humble and decent life. This Fund is newly titled as ‘Sahos’.

’Sahos’ is exclusively designed for ensuring immediate financial assistance to support the
vulnerable poor during and post-disaster periods. This fund mainly seeks to facilitate the coping and recovery mechanisms of the poor people. This fund is primarily used for livelihood restoration including repairing of houses, tube-wells and latrines; restoring the existing IGAs and recovering consumption capabilities during the post-disaster period. It also guarantees the provision of emergency medical services, water and sanitation. PKSF mobilizes this fund from its own income and resources of other organisations.

Summary of ‘Sahos’ Programme of PKSF (as of June 2015)

Sustainable intensification and diversification of climate resilient agricultural systems are directly related to the agricultural development that can lead to food and nutritional security. Quality agricultural inputs, appropriate technologies and effectiveness of extension services contribute to attain and maintain self-sufficiency in staple food production and meet the nutritional requirements of the poor.

Establishment of agro-based industries, commercialisation of agriculture, availability of storage and processing facilities and efficient transportation are the major concerns of agricultural development. To achieve food security and ensure the basic right to food for the people of the Islamic countries, “Kuwait Goodwill Fund” (KGF) was established in 2008.

A tripartite grant agreement of USD 10 million has been signed between Government of Bangladesh (GoB), Kuwait Fund for Arab Economic Development (KFAED) and Palli Karma-Sahayak Foundation (PKSF) on 30 January, 2011. The objective is to facilitate fund for small business activities under KGF.
The major thrusts of this programme are: linkage to sustainable agricultural loan services; loan for farm and off-farm activities; flexible repayment system based on harvesting pattern; promotion of livestock insurance etc. All capable members of the Partner Organisations (POs) of PKSF with good track record of receiving and utilising comparatively high amount of credit are eligible to claim funds from this programme. A maximum amount of BDT 3,00,000 in the form of microcredit and BDT 3,00,001 to BDT 15,00,000 as small loan can be approved under this programme for prospective proposals relating to food production and processing, storage and marketing of agricultural products and by-products in small businesses and micro-enterprises. A part of the income from this programme is also spent as grant for the training for the participants, PO and PKSF staff as well as dissemination and expansion of different technologies at the farm level.

**Achievements**

**Credit Assistance**

A total of 1,44,085 members (cumulative) have been organised in 6,393 groups since the inception of the KGF programme. It may be noted that of them, 1,02,344 are female comprising of 71.03% of the total enrolled members. Savings of the beneficiaries under this programme stood at BDT 178.72 million at the field level. Under KGF programme, PKSF has distributed BDT 9.6 billion to concerned POs during FY 2014-15, which is 98.97% of the programme budget. At the same time, the POs distributed BDT 16.10 billion to the programme participants. As of June 2015, loan outstanding with KGF programme at PKSF-PO level and PO-participants level stood at BDT 8.81 billion and BDT 10.14 billion, respectively. The loans taken by the members have been invested in more than 17 categories of farm and off-farm activities. As per sector-wise utilisation, crop production shares the highest portion (50.26 %) of total loan (cumulative) followed by beef fattening (35.73 %), fish culture and livestock rearing (09.63 %) and seasonal business and others (4.38 %) respectively.

**Capacity Building and Technical Assistance**

To build up the capacity at the local level, a total of 885 batches (22,125 members) have been trained on crop production, livestock rearing and fish production. Specialised residential training (4-5 days long) on modern livestock rearing, fish production, vegetative propagation and fruit tree management were also arranged for 525 active members in different research and educational organisations. Training for 501 PO-level officers on “Implementation strategy of KGF Programme” and 150 officers on “Basic Agriculture and Technology Update” were organised in different training centres of POs and Horticulture Centre of DAE, respectively. KGF programme also arranged training for 80 Agriculturists/Diploma Agriculturists on “Modern Rice Production Technology” at Bangladesh Rice Research Institute (BRRI).

Environment-friendly, area-specific, simple and low cost agricultural technologies were disseminated through 175 demonstrations and 72 field days. Forty exposure visits and 22 mobile cinema shows were also organised at different locations for wider and useful dissemination of latest relevant information. One of the most important activities of KGF programme is to distribute technology expansion related inputs. Under KGF programme, 13,136 pheromone traps (used for insecticide-free vegetable production), 775 porous pipes (for irrigation, water saving and rice production), 130 USG applicators (for easy and effective application of urea granule in the rice fields) and 50 power sprayers (for judicious use of pesticide to produce quality mangoes) were distributed.

**Budgetary allocation of BDT 144.85 crore for a total 33 POs is in place for FY 2015-16.**
A large number of Bangladesh population living under poverty line often face crises because of the recurrence of natural disasters. These multiply the miseries of the poor communities with the loss of their modest assets and property. These helpless people falling in such crises require special assistance to combat the emergency situations. During the crises, a number of organisations and individuals often approach PKSF for special financial assistance to address their immediate needs. With no provision in its mainstream programmes to respond to these needs, PKSF has formed a Special Fund from its own resources in 2010.

The programmes/projects participants of PKSF including PKSF and POs staff suffering from such crises can get support from the Special Fund. It also facilitates various social services for the community such as provision of safe drinking water, health, education etc. in the remotest areas of the country. In addition, the helpless and ailing freedom fighters, teachers, development workers are also eligible to get support from this Special Fund.
Objectives

- Rehabilitate the disaster-stricken poor people through financial and material assistance;
- Provide emergency support to the vulnerable communities in some special situations through community support programmes, such as, provision of safe drinking water, repair of infrastructure such as roads, bridges/culverts;
- Facilitate scholarship programme for meritorious children of the poor and ultra poor programme participants of the Partner Organisations of PKSF to help continue their studies. In exceptional cases, educational grants are also offered;
- Provide financial assistance to the education and health-related non-government institutions that serve the poor and ultra poor;
- Organise special programmes and activities on some special occasions relating to health, education, sports etc;
- Provide financial and material assistance to the individuals to meet the needs of emergency and expensive medical care.

A committee consisting of four members headed by the Managing Director of PKSF operates the fund. The committee scrutinises the applications for grant and accordingly approves funds.

Since 2010, PKSF has disbursed around BDT 1.35 crore in total as financial assistance to education, health and other social services sectors from its Special Fund.

Activities of Special Fund during FY 2014- 2015

In FY 2014-2015, PKSF has provided BDT 41.89 lac as financial assistance to 31 individuals and one institution under Special Fund.

- BDT 14,00,000 has been given to individuals for medical care.
- BDT 2,54,500 has been disbursed as scholarship to meritorious students of poor and ultra poor family.
- BDT 2,54,428 has been provided to “Cheuria Lalon Academy” at Kushtia to help the students of this Academy to learn Lalon songs. The teachers and office staff of the Academy also get their salaries from this grant. Apart of this, grant has been used to buy 13 types of different musical instruments for the Academy.
- BDT 21,00,000 has been disbursed to the families of the deceased officials of “Anannya Samaj Kalyan Songstha”.
- PKSF has also provided BDT 1,50,000 to a number of individuals to maintain their livelihoods.
- BDT 5 lac has been provided to Bangladesh Scouts for its 8th National Cub Comporee.
PKSF attaches very high importance to increase efficiency and skill development in its every single intervention. Structured training and introduction to updated knowledge and technologies naturally lead reduction of cost and betterment of performance. The training wing represents distinct continuity, competence and mission.

PKSF organises internal and overseas training for its own and officials of POs’ covering wide range of areas related to poverty reduction and employment generation. In FY 2014-2015, PKSF organised training for 5751 participants of its POs in 242 batches. Till June 2015, PKSF has provided training exclusively to 75,674 officials of different levels of its Partner Organisations (POs) since its inception.

Besides training, exposure visits are organised for the foreign delegates from different countries as per their requests over the year. Training department also organises internship for post-graduate level students of different reputed public and private universities and institutions from home and abroad.
Major areas of training covered during 2014-15 are:

- Savings and Microcredit Management: No. of participants: 601 mid-level officials
- Training of Trainers (ToT) No. of participants: 118
- Accounts & Financial Management: No. of participants: 580
- Group Dynamics, Savings and Microcredit Management: No. of participants: 1809 field level workers
- Advanced Microfinance & Institutional Management: No. of participants: 104 senior/mid-level officials
- Financial Product Design and Diversification: No. of participants: 82 senior/mid-level officials
- Strategic Planning for NGO and MFI: No. of participants: 118 mid-level officials
- Monitoring & Evaluation: No. of participants: 128 mid-level officials
- M&E and SME Operation and Management: No. of participants: 1041 field level workers
- Internal Audit for Operation of NGO/MFIs: No. of participants: 128 mid-level officials

Moreover, a total of 982 officers of different levels of POs have received training under CCCP, DIISP & Ujjibito projects. The areas of training were on the respective project based activities.

Training for Non-POs: PKSF has organised training for 60 participants of LGED during the FY 2014-15. The areas of training were on different managerial issues of microfinance and social development interventions.

PO Officials’ Exposure Visit
In FY 2014-2015, officials from different POs have visited different reputed overseas institutions including CICETE-China & Joyful Union-Korea.

Training for PKSF Officials in FY 2014-2015
- In-Country Training: PKSF organised training for its 64 officials in FY 2014-15 at BARD – Comilla, Institute of Statistical Research & Training (ISRT), Dhaka University, BRAC, BPATC, Bangladesh Bank Training Academy, Planning Commission and icddr,b.
- Exposure Visit & Workshop (abroad)
  - 49 officials of PKSF have visited different renowned institutions abroad. The countries include Mexico, Nepal, New Zealand, Thailand, Cambodia, China, Vietnam, Korea and Philippines.

Beneficiaries’ Training
In the FY 2014-15, a total of 68,031 beneficiaries received training under different projects on social interventions, skill development, IGA management & awareness building. Among them, 7020 beneficiaries received training under CCCP; 12,255 under PROSPER 33,850 under Ujjibito, 331 under ENRICH and 14,575 beneficiaries under KGF project.
Overseas participants

A total of 69 foreign visitors from 16 countries visited PKSF as a part of their exposure visits and to participate in different workshops.

Internship Programme

A total of 11 interns from London School of Economics, New York University, Dhaka University, BRAC University, Bangladesh University of Professionals (BUP), Sher-e-Bangla Agriculture University and City University of New York, have successfully completed their internship at PKSF in 2015.
PKSF’s strength certainly lies in the fast and effective implementation of performance and projects. But it has also learnt from its ground experiences that true impact studies can offer the key to any successful planning with this end in view.

The research division of PKSF was established in 2009 as an independent unit to provide necessary research support to PKSF programmes. Earlier, the research activities of PKSF were conducted through a research cell. The research division is expected to create practical and adaptable solutions by conducting credible research which makes long-lasting positive changes in poverty alleviation and sustainable development of the country.

Although the research division concentrates its activities on the assessment of different programmes/interventions of PKSF and its impact on poverty alleviation. It also undertakes multi-disciplinary studies on various development issues, such as microfinance, agriculture, insurance, employment generation, food security etc.
The research division also conducts research to explore future development intervention areas of PKSF programmes. These research activities are conducted by PKSF staff as well as in collaboration with external research and academic institutions and also through outsourcing.

Recently, the research division has completed two studies. One is 'Employment Creation through Microcredit Programmes Supported by PKSF and Others: The Cases of TMSS and JCF', and another one is 'Risks in Agricultural and Seasonal Credit and Its Causes in the Context of Partner Organisations of Palli Karma-Sahayak Foundation'.

The general objective of the first study is to assess the impact of microcredit programme on employment generation conducted by PKSF and its Partner Organisations. A total of 1368 households from Jagoron and Agrosor programmes of Thengamara Mohila Sabuj Sangha (TMSS) and Jagorani Chakra Foundation (JCF), two POs of PKSF were selected for the study.

This study recommends for putting more emphasis on the expansion of Agrosor programme, creation of employment in non-agriculture sector, provide demand-led training to economically active population to create employment as well as to derive demographic dividend, ensure women’s participation through proper monitoring, supervision and providing of skills and appropriate amount of loan to the borrowers in employment-intensive areas like industry, business, processing etc.

The broader objective of the second study is to assess the risks in agriculture and seasonal credit and its causes in the context of credit operations of PKSF. The study was conducted on the basis of primary and secondary data. The study identified several causes that affect timely repayment of agriculture and seasonal credit. The causes are natural and man-made disaster, lack of quality agricultural inputs, lack of technical support and training, lack of preservation facilities of commodities and livestock mortality.

The study also finds some risks in credit disbursement system that include inadequate size of loan, diversion of loan, unwillingness to repay loan, provision of parallel loan and defalcation of money by the members and field workers.

The study recommends the introduction of crop and livestock insurance, provision of technical support and training to the farmers, measures to ensure fair price of produces and effective use of loan. The study also recommends revision of loan ceiling, timely disbursement of fund, determination of service charges on the basis of actual duration of loan and execution of loan repayment flexibilities.

At present, the Research Division is conducting three researches by its own researchers and jointly with other organisations.

1. 'Staff Drop Out from Microfinance Institutions: Patterns, Causes and Consequences'.
2. 'A Cross Generation Study on the Microfinance Borrowers in Bangladesh', jointly with the University of Calcutta.
3. 'An Exploratory Study on Female Agriculture Wage Labourers in Rural Bangladesh', jointly with the Institute of Microfinance (InM) and Dhaka School of Economics (DScE).
Ensuring the visibility and impact of PKSF’s work depends upon its wide and effective dissemination of information of the activities to the government, development agencies and Partner Organisations. Annual Report and Quarterly Newsletter are the regular publications meant for this purpose. Apart from these, the publication cell also offers regular assistance in the publication of different reports, proceedings of important seminars, monographs on special issues, performance-based documentations etc.

The publication cell assists to prepare, edit and design booklets, flip-charts and brochures of various departments. It also helps prepare and edit the Terms of References of different official documents. All publications are open to public access and are available on PKSF website www.pksf-bd.org. Moreover, the publication cell also assists to edit the materials regularly uploaded on PKSF website. PKSF publishes Newsletter (Bengali and English) quarterly which contains information of PKSF’s activities in each quarter.

The publication cell, from time to time, takes care of publishing booklets on various issues.
Every year PKSF undertakes new projects and programmes. The publication cell puts all its efforts to prepare the documentation of these activities on the yearly basis in a graphic way supplemented by lively and relevant photographs.

Documentation of the performance of different programmes, brochures and occasional publications come out at various intervals as per the demand of different divisions.

The publication cell regularly helps prepare different publications in terms of their layout, design and production. The cell plays an additional role to enhance the quality of the publications. The progress reports of different programmes and projects are often thoroughly edited and given the final shape.

**List of some selected publications 2015**

- Four co-curricular reading materials for juvenile learners
PKSF is always keen to get the feedback from different groups of stakeholders and people in general about its activities and programmes. PKSF organises a number of seminars and workshops throughout the year on different national, regional and global issues on development to update its officials and other interested persons. The communications cell plays an important role to disseminate such events and information through print and electronic media. The communications cell also takes care to highlight the activities and achievements of PKSF.

The communication Cell regularly disseminates the progress of the ongoing projects, new interventions and services of PKSF to people through the media. The cell is now looking after two separate TV programmes dedicated to current activities of PKSF namely ‘Unnayane PKSF’ on Banglavision and ‘PKSF Shomoy’ on ATN Bangla. People get to know about the services and opportunities available across the country under PKSF programmes and projects. PKSF also uses the media to build up awareness on critical social issues.
PKSF has a viewer-friendly website which consistently updates the detail of regular proceedings of the activities of the Foundation. Visitors of the website can have easy access to various special programmes and projects, training facilities, organisation profile, publications, policies, research works, partner organisations, library, lending activities, job circular etc.

The communications cell with all its efforts upholds PKSF’s mandate of establishing human dignity among the poor people through the projection of all its development programmes and projects.
PKSF has an enriched library with a good collection of books, journals, study reports and publications of different programs and projects. There are books on economics, accounting, statistics, environment, agriculture, human resources, management, climate change, marketing, information technology, religion, law, liberation war, autobiography etc. There is a separate space for Community Climate Change Project (CCCP) for specialized books and publications on global climate change issues and its impact in Bangladesh.

Updated government gazette, economic review, census, national and international working papers, journals and magazines of well-reputed national and international organizations are in the shelves of the library. The archive of PKSF library preserves reports on various research activities through video documentation, audios, CD, VCD, DVD, VHS and BETACAM. The total collection of PKSF library is around 10500. The library is operated under a fully automated process. Anyone elsewhere from the world can have the access to visit the library through PKSF Website.
FOREIGN DELEGATES’ VISIT
Her Majesty Queen Máxima of The Netherlands, also the UN Secretary General's Special Advocate (UNSGSA) for Inclusive Finance for Development, visited PKSF on November 16, 2015. It has been a great honour for PKSF to receive Her Majesty in its premises. The Chairman and the Managing Director of PKSF warmly welcomed her.

In honour of and as desired by her, PKSF organised a roundtable on “The Future of Microfinance Institutions in Bangladesh.” Dr. Qazi Kholiquzzaman Ahmad, Chairman, PKSF chaired the roundtable. HE Leoni Margaretha Cuelenaere, Dutch Ambassador to Bangladesh; HE Mr. Sheikh Mohammed Belal, Bangladesh Ambassador to The Netherlands; PKSF DMDs, President of ASA, ED of BRAC, Acting MD of Grameen Bank, EDs of a number of PKSF POs and a number of HM the Queen’s aides were present in the roundtable.

In her speech, Queen Máxima expressed her deep satisfaction over the performance of PKSF income generating activities and also appreciated different programmes and projects of PKSF and its POs. She particularly appreciated the human-centric approach of PKSF and also mentioned that Bangladesh has already set an example in inclusive financing to alleviate poverty from the society.
Nobel Peace Laureate and noted child rights activist, Kailash Satyarthi visited PKSF on May 30, 2015. Dr. Qazi Kholiquzzaman Ahmad, Chairman, PKSF and Mr. Md. Abdul Karim, Managing Director, PKSF welcomed him in the office. Mr. Satyarthi met PKSF Board members and high officials of the Foundation. PKSF team presented him traditional jamdani sari, nakshi kantha and a crest.

On May 30, 2015, Mr. Satyarthi attended the South Asia Right to Food Conference 2015 as the guest of honour at Krishibid Institution at Khamarbari in the city. Palli Karma-Sahayak Foundation (PKSF) was a co-organiser of the event. Sheikh Hasina, MP, Hon’ble Prime Minister, the People’s Republic of Bangladesh inaugurated the conference. The programme was chaired by Dr. Qazi Kholiquzzaman Ahmad, Chairman, PKSF and Chairman, Organising Committee of the conference. Among others, Md. Qamrul Islam, MP, Hon’ble Minister, Ministry of Food, Dr. A A M S Arefin Siddique, Vice Chancellor, Dhaka University spoke on the occasion. In his speech, Mr. Satyarthi emphasised on the need of building social and public movement against poverty.
On May 31, 2015, Mr. Satyarthi attended a national conference on Right to Education jointly organised by PKSF and Campaign for Popular Education (CAMPE). Chaired by Dr. Qazi Kholiquzzaman Ahmad, Chairman, PKSF, Mr. Md. Abdul Karim, Managing Director, PKSF delivered the welcome speech in the programme. Mr. Karim welcomed Mr. Kailash Satyarthi with words of warmth and appreciation. Dr. Ahmad, in his speech, said that the Right to Education Act will play an important role in implementing national education policy and hence to find out some lasting and effective paths to eradicate poverty.

In his speech, Mr. Satyarthi, in addition to the needs of children to have education, expressed his concern on the high rate of child marriage in Bangladesh and India and opined that the minimum age of marriage should be 18 for girls.
EXECUTIVE DIRECTOR OF ZAMFI

Mr. Godfrey C. Chitambo, Executive Director, Zimbabwe Association of Microfinance Institutions (ZAMFI) and Mr. Brian Zimunhu, CEO, Zimbabwe Microfinance Fund (ZMF) (ZAMFI), paid a visit to PKSF from October 18-22, 2015. They met the high officials of PKSF and had an experience of the management affairs and operational strategy of PKSF. The team visited PKSF partner organisations—Sajida Foundation in Dhaka and YPSA and IDF in Chittagong.

They also met the Chairman and the Managing Director of PKSF and held fruitful discussions. The ZAMFI delegation felt very pleased to see the implementation of various pro-poor programmes undertaken by PKSF across the country. They also highly appreciated the efficient relationship of PKSF with its Partner Organisations working at the grass root level. They expressed their opinion that they would take back their valuable experiences to put them into practice in Zimbabwe.
FIELD VISIT BY DEVELOPMENT PARTNERS
From June 6 to 10, 2015, Mr. Monjurul Alam, a representative from European Union, visited Community Development Center (CODEC) and Shangathito Gram Unnayan Karmashuchi (Sangram), two Partner Organisations of PKSF, engaged in implementing UPP-Ujjibito at Kalapara and Sadar upazilas of Patuakhali district. He visited the activities of RERMP-2 at Latachapli, Dhulessor, Mohipur, Pakhimara and Nilganj Unions of Kalapara upazila. Mr. AKM Nuruzzaman, Deputy General Manager, PKSF & Project Coordinator of UPP-Ujjibito and Engineer Ruhul Amin, Deputy Project Coordinator of RERMP-2 component, accompanied him during the visit.

During the visit, Mr. Monjurul Alam had a first hand and field level experience of the activities of the groups under RERMP-2 and he talked to the ultra poor members of the project about the impact and prospects of various activities. He visited the households of the members involved in goat rearing and other Income Generating Activities (IGAs). He was also present in some sessions of the training courses organised on tailoring & homestead gardening.
A Supervision Mission of International Fund for Agricultural Development (IFAD) visited the project area of Promoting Agricultural Commercialisation and Enterprises (PACE) from August 30, to September 11, 2015.

Led by Mr. Hubert Boirard, Country Programme Manager, IFAD, Rural Finance Specialist Mr. Alok Kumar, Value Chain Specialist Mr. Khairul Islam, Institutional Specialist Ms. Tamara Lampe, Knowledge Management Specialist Ms. Shameem Ara Sheuli, and Country Programme Officer Mr. Nicolas Syed visited the project activities of PACE in Brahmanbaria, Barisal, Pirojpur, Khulna, Bagerhat, Satkhira and Jessore areas.

Mr. Akond Md. Rafiqul Islam, General Manager (Operations), PKSF and Project coordinator of PACE project accompanied the team during the field visit. During the visit, the members of the mission expressed their satisfaction over the progress of the project done so far within the initial phase.
EUROPEAN UNION DELEGATES VISIT CCCP WORKING AREAS

A team of Heads of Missions of some European countries and European Union delegates visited the climatically vulnerable areas of Satkhira district which are covered by some mitigation and adaptation measures and initiatives of Community Climate Change Project (CCCP). The visit took place on 17 November, 2015.

Mr. Md. Abdul Karim, Managing Director, PKSF, accompanied the delegation. The team members were: H.E. Mrs. Hanne Fugl Eskjeer, Ambassador, Embassy of Denmark; H.E. Mr. Pierre Mayaudon, Ambassador and Head of EU Delegation; H.E. Mr. Mario Palma, Ambassador, Embassy of the Republic of Italy; H.E. Dr. Thomas Heinrich Prinz, Ambassador, Embassy of the Federal Republic Germany; H.E. Mr. Eduardo de Laiglesia y del Rosal, Ambassador, Embassy of Spain; Mr. Jean-Pierre Poncet, Deputy Head of Mission, Embassy of France; Mr. Paul Eastwood, Team Leader, DFID, British High Commission; Mr. Mario Ronconi, Minister Counsellor & Head of Unit-Head of Cooperation, EU Delegation; Mr. Rene de Vries, Head of ECHO Office; Mr. Gonzalo Serrano, First Secretary, EU
Delegation; Mr. Magnus Andre, Second Secretary, Embassy of Sweden; Ms Farzana Mustafa, DFID, British High Commission and Mr Owasim Akram, Programme Officer, EU Delegation.

The team visited the ongoing activities of CCCP in the severely saline-affected Shyamnagar and Kaliganj upazilas of Satkhira district. The team visited different interventions including crab fattening farm demonstration, desalination plant, ENRICH houses, ENRICH beggar rehabilitation programme and ENRICH health centres.

The delegation appreciated the sincerity and commitment of PKSF officials and of its Partner Organisations in the implementation of activities devoted to restore the smile on the faces of the people left to the whims of nature.
Ms. Sarah Cooke, Country Representative of DFID Bangladesh, visited the activities of Programmed Initiatives for Monga Eradication (PRIME) at Satkhira on November 25, 2015. Mr. Mohammad Roqibul Islam, Program Manager, Growth and Private Sector Development; Ms. Helen O’Conor, Climate Change and Environment Adviser; Mr. Dan Ayliffe, Humanitarian Adviser; Ms. Syeda Masarrat Quader, Private Sector Adviser and Ms. Nafisa Ziauddin, Programe Manager, International Trade and Development of DFID accompanied Sarah Cooke during the visit.

The DFID team visited PRIME activities in AILA and SIDR-affected households. They witnessed different livelihood activities under PRIME that include vegetable culture in sacks, quail rearing, eel fish fattening, duck rearing, crab fattening and handicrafts. They also observed satellite clinic services, adolescent group meetings and general health camps under Primary Health Care Services of PRIME. They also witnessed a training programme on crab fattening as well as the market linkage system of crab and eel-fish. The team visited safe drinking water
supply project under DFID-funded LIFT programme in the salinity-prone Shyamnagar area. Ms. Cooke appreciated the overall field level progress of PRIME and LIFT programmes of PKSF. She expressed her satisfaction on the visible impact of PRIME interventions on the life of the helpless ultra-poor who almost wretchedly lead a life of struggle and uncertainty in these critically vulnerable areas.
A National Dialogue on “The Paris Agreement: A Critical Look”, jointly organised by PKSF and Bangladesh Unnayan Parishad (BUP), was held on January 05, 2016 at PKSF Bhaban. Dr. Qazi Kholiquzzaman Ahmad, Chairman, PKSF and coordinator of Bangladesh Climate Change Negotiating (BCCN) Team chaired the meeting. Mr. Md. Abdul Karim, Managing Director, PKSF and Mr. M. A. Jalil, Chairman, BUP made the opening remarks. Dr. Ahmad started the discussion with a critical review of the major contents of recently signed Paris Agreement on climate change. Other discussants were Dr. M. Asaduzzaman, Professorial Fellow, BIDS; Dr. Rezaul Karim, Environment Specialist; Dr. Nurul Quadir, Joint Secretary, Ministry of Environment & Forest; and Dr. Mizan R. Khan, Professor, North-South University.

Discussion rolled on the adaptation and mitigation measures, technology transfer & negotiation, climate financing etc. to assess our needs and prospective benefits. PKSF and BUP officials, the officials of the Government of Bangladesh, PKSF’s Partner Organisations, other development organisations, distinguished guests and persons representing the print and electronic media were present in the dialogue.
In pursuance of sustainable development initiative of Indian Ocean Rim Association (IORA), an international workshop titled ‘Promoting Microfinance for Economic Development in IORA Region’ was held from April 8 to 9, 2015 at PKSF Bhaban.

Ministry of Foreign Affairs of Bangladesh and PKSF jointly organised this workshop. The member countries of IORA participated in this 2-day long workshop to understand the key issues for the successful implementation of microcredit programmes.

Mr. Abul Maal Abdul Muhith, MP, Minister, Ministry of Finance, Government of the People’s Republic of Bangladesh inaugurated the workshop on April 08, 2015. Dr. Qazi Kholiquzzaman Ahmad, Chairman, PKSF was the special guest of the inaugural session. The session was presided over by Mr. Md. Abdul Karim, Managing Director, PKSF. Senior officials of the Ministry of Foreign Affairs, other Government officials, delegates from countries of IORA region, officials of PKSF and representatives of its Partner Organizations were present in the inaugural session.
19 representatives from IORA member countries and IORA headquarters participated in the workshop.

In his speech, Mr. Abul Maal Abdul Muhith, Hon’ble Finance Minister highlighted the history of microcredit in Bangladesh, its significant role in women empowerment and socio-economic development through poverty alleviation. In addition, he also referred to PKSF’s inception and the significance of its activities.

Special guest of the programme, Dr. Qazi Kholiquzzaman Ahmad briefed the audience on the history of PKSF. He also talked on the evolution and redefinition of microfinancing that at present PKSF believes in and practices. He commented that appropriate credit for effective utilization will benefit the poor debtors in the real sense of the term. In addition to financial assistance, Dr. Ahmad also emphasised on education and health care programmes.

Four discussion sessions namely, The Inherent Synergy between Microfinance and Development in Member States; From Disbursement Based Financing to Integrated Development Financing; Microfinance for Inclusive Growth and Poverty Alleviation and Financing for Enterprise Development: Policy Frameworks, Institutional Structures and Monitoring Mechanisms, were held during the workshop.

Senior officials of PKSF, particularly those dealing with microfinance as well as the experts from Indonesia, India and Sri Lanka took part in these sessions.

The closing session of this 2-day long workshop was held on 9 April, 2015 at PKSF Bhaban. Mr. Abul Hassan Mahmood Ali, MP, Minister, Ministry of Foreign Affairs, Government of the People’s Republic of Bangladesh was present as the chief guest, while Dr. Atiur Rahman, Governor of Bangladesh Bank was the special guest in the closing session. Rear Admiral (Retd.) Md. Khurshed Alam, BN, Secretary (MAU), Ministry of Foreign Affairs (Bangladesh) presided over the closing session.
In pursuance of similar events organised in the previous years, PKSF celebrated International Women’s Day in 2015. To mark the day, the Foundation organised a seminar on the state of women in Bangladesh in the context of universal human rights and our duties, on May 4, 2015. The female members of the Governing and General Bodies of PKSF, Managing Director, Deputy Managing Directors, General Managers, Deputy General Managers and female employees of PKSF, female Executive Directors of the Partner Organisations (POs) attended the seminar. The seminar was presided over by Dr. Qazi Kholiquzzaman Ahmad, Chairman, PKSF.

Mr. Md. Abdul Karim, MD, PKSF delivered the welcome speech in the seminar. Referring to the PKSF initiatives to accelerate women empowerment, he said that 90% beneficiaries of PKSF and its POs are women.

Ms. Salma Akhter, a professor of the University of Dhaka presented the keynote paper in the seminar. In the paper, she pointed out that women are now enjoying more rights than they did in the past, which is reflected in the number of the elected female representatives in local government.
CLOSING CEREMONY
OF PKSF’S SILVER JUBILEE

The closing ceremony of PKSF year-long Silver Jubilee programme was held at Bangabandhu International Conference Centre on May 10, 2015. Mr. Abul Maal Abdul Muhith MP, Minister, Ministry of Finance graced the programme as the chief guest. Mr. Abul Hassan Mahmood Ali, MP, Minister, Ministry of Foreign Affairs and Ms. Meher Afroz Chumki, MP, State Minister for Women and Children Affairs were present in the programme as special guests. The programme was presided over by Dr. Qazi Kholiquzzaman Ahmad, Chairman, PKSF. Mr. Md. Abdul Karim, Managing Director, PKSF was also present. The members of PKSF’s Governing Body and General Body, all PKSF officials including Deputy Managing Directors and top officials of Partner Organisations (POs) attended the joyful occasion.

On May 11, 2014, PKSF started observing its 25th anniversary. To mark the milestone of the anniversary, the Foundation started the year-long Silver Jubilee programme on that day. Mr. Abul Maal Abdul Muhith MP, Minister, Ministry of Finance, Government of the People’s
Republic of Bangladesh also inaugurated the programme at Bangabandhu International Conference Centre. In the afternoon, the executives and representatives of Partner Organisations (POs), PKSF activists, teachers and health workers involved with the implementation of ENRICH, took part in a massive assembly what was called as the ‘grand conference’.

The closing ceremony was the formal ending of the year-long celebration. The programme was marked with the reflections of some of the more human-centric performance in which PKSF has shown increasing interest. Two of the rehabilitated beggars under ENRICH programme of PKSF shared their experiences in the closing ceremony while scholarships were awarded to meritorious children belonging to the disadvantaged and poor families connected with the ultra poor programme of PKSF. PKSF also felicitated 3 successful entrepreneurs.

Two distinguished freedom fighters were honoured with lifetime achievement award for their glorious contribution to our Liberation War in 1971. They are: A M Sharfuzzaman, a former engineer of Bangladesh Betar and Begum Mushtari Shafi, a writer and leader of women’s liberation movement.

In his speech, Mr. Abul Maal Abdul Muhith, MP, the chief guest of the programme, expressed his hope that PKSF would continue to contribute to the socio-economic development of the country to a larger extent in future. Mr. Muhith hailed the ENRICH programme of PKSF and said that ENRICH will not only alleviate poverty but will also play a significant role in the overall sustainable development of the poor.
In his speech, Dr. Qazi Kholiuzzaman Ahmad, Chairman, PKSF focused on the significant aspects and importance of celebrating the year-long silver jubilee programme.

Quoting a verse of Rabindranath Tagore ‘All these mute faces have to be made articulate’, Mr. Md. Abdul Karim, MD, PKSF said that since its inception, the devoted PKSF officials and its Partner Organisations have been working with commitment for the development of the silent rural poor of the country.

The closing part of the programme turned into festivity with the concert of Haider Hossain. Two PKSF officials, Mr. G. M. Humayun Azam and Ms. Fatema Khatun Ruma and five Partner Organisations of PKSF including VERC, IDF, PROYAS, Desha and Prottashy also performed in the cultural part of the closing ceremony.
PKSF participated in Bangladesh Development Fair (BDF) 2015 held at Bangabandhu International Conference Centre in Dhaka from November 15 to 16, 2015. Economic Relations Division (ERD) organised the fair. Her Excellency Sheikh Hasina, Prime Minister of the Government of the People’s Republic of Bangladesh, inaugurated the fair.

Sixteen different ministries, divisions and organisations of the Government of Bangladesh, 16 development partners and eight different NGOs as well as private organisations took part in the fair.

PKSF participated in the Fair and took the opportunity to showcase its ongoing activities of poverty alleviation through employment generation. PKSF displayed an infograph titled “PKSF: People’s Partner for Sustainable Progress” which projected various PKSF programme and project activities being implemented across the country. Different publications, newsletters, documentaries were also displayed at the PKSF stall during the fair.

Honourable Prime Minister visited the PKSF stall and exchanged greetings with the PKSF officials.
AUDITOR’S REPORT
Independent Auditors' Report

to the Members of General Body of
Palli Karma-Sahayak Foundation (PKSF)

We have audited the accompanying financial statements of Palli Karma-Sahayak Foundation (PKSF), which comprise the statement of financial position as at 30 June 2015 and the statement of comprehensive income, statement of cash flows and statement of changes in equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management’s Responsibility for the Financial Statements
PKSF’s management is responsible for the preparation and fair presentation of these financial statements in accordance with Bangladesh Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility
Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risks assessments, the auditors consider internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements present fairly, in all material respects, the financial position of Palli Karma-Sahayak Foundation (PKSF) as at 30 June 2015 and its financial performance and its cash flows for the year then ended in accordance with Bangladesh Financial Reporting Standards and other applicable laws and regulations.

We also report that:

a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;

b) In our opinion, proper books of account as required by laws have been kept by PKSF so far as it appeared from our examination of those books; and

c) The statement of financial position and statement of comprehensive income dealt with by the report are in agreement with the books of account.

Dated, Dhaka:
30 November 2015
